

CITY OF ONTARIO

MEMORANDUM

TO: Kevin Shear, Building Official

FROM: David Simpson, Development Manager 

DATE: October 2, 2015

SUBJECT: Multifamily Fiber Conduit Requirements

In response to your request for further direction from the Fiber Team in regard to the fiber conduit requirements for multi-dwelling units please see below:

For the purposes of this memo, multifamily dwellings shall contain four or more units. A two inch conduit shall connect the hand hole to the complex's communications closet (Outside Box). This two inch conduit is reserved for City Fiber use only. The Outside Box shall connect to each Inside Box via a 1.5 inch joint use communication conduit. The City reserves half of the conduit's diameter for City use, the balance of the space maybe used by any telecommunication vendor.

Facilities containing three or less units will be conditioned identical to Single Family Residences.

c: Otto Kroutil, Development Director
Elliott Ellsworth, IT Director
Jimmy Chang, Telecommunications Manager
