APPENDIX F1 PHASE I ENVIRONMENTAL SITE ASSESSMENT

# **CONVERSE CONSULTANTS**

Phase I Environmental Site Assessment Report

60-Acre Property in Ontario Euclid Avenue and Schaefer Avenue Ontario, California

Converse Project No. 21 Ju

21-16-121-01 July 29, 2021

**Prepared For:** 

RCCD, Inc. 8101 East Kaiser Boulevard, Suite 140 Anaheim Hills, California 92808

**Prepared By:** 

Converse Consultants 8333 Foothill Boulevard, Suite 104 Rancho Cucamonga, California 91730

July 29, 2021

Mr. Jason Lee RCCD, Inc. 8101 East Kaiser Boulevard, Suite 140 Anaheim Hills, California 92808

## Subject: PHASE I ENVIRONMENTAL SITE ASSESSMENT REPORT

60-Acre Property in Ontario Euclid Avenue and Schaefer Avenue Ontario, California Converse Project No. 21-16-121-01

Mr. Lee:

Converse Consultants (Converse) is pleased to submit the attached report that summarizes the activities and the results of a Phase I Environmental Site Assessment (Phase I ESA) that was conducted at the referenced property.

A summary of the assessment is presented in the Executive Summary, as well as in Sections 8.0, 9.0, and 10.0 of the report. Recognized Environmental Conditions were identified during this assessment. Recommendations for additional assessment were made.

We appreciate the opportunity to be of service. Should you have any questions or comments regarding this report, please contact Norman Eke at (626) 930-1261.

## **Executive Summary**

The following is an Executive Summary of the Phase I Environmental Site Assessment (Phase I ESA) that was conducted by Converse Consultants (Converse). Please refer to the appropriate sections of the report for a complete discussion of these issues. In the event of a conflict between this Executive Summary and the report, or an omission in the Executive Summary, the report shall prevail.

This report presents the results of the Converse Phase I ESA performed for 60-acres of agricultural land at the southeast corner of Euclid Avenue and Schaefer Avenue in the City of Ontario, San Bernardino County, California, referred to as the Property in this report. Converse was retained by RCCD, Inc. to conduct this Phase I ESA. Our study has been conducted in order to identify, to the extent practical within the scope of an ESA, Recognized Environmental Conditions (RECs) in connection with the Property.

Converse has compiled and reviewed information that was obtained from interviews, document research, and on-site and area reconnaissance to identify potential environmental conditions at the Property in conformance with the ASTM Standard E: 1527-13 Environmental Site Assessment Standard Practice (ASTM Standard: E1527-13). This Phase I ESA was conducted during the period of June 22, 2021 to July 29, 2021.

This assessment has revealed no evidence of RECs in connection with the Property except for the following:

- Agricultural use from as early as 1938 is a REC due to potential residual contamination from agricultural chemical use.
- On-site dairy operations and associated chemicals, manure and equipment from as early as 1946 are RECs.

Based on this assessment, Converse has the following recommendations:

- Soil sampling over the Property. Areas to be assessed should include the farmland, catch basins, maintenance areas, AST (and drain underneath AST) & UST areas, and livestock/manure areas.
- Containers of hazardous materials, equipment, and tires should be removed from the Property prior to acquisition. If these items are left on-site, they will need to be disposed of in accordance to applicable regulations.
- A methane assessment in accordance with the City of Ontario requirements should be conducted.

### 1.1 Purpose and Scope of Services

This report presents the results of the Converse Consultants (Converse) Phase I Environmental Site Assessment (ESA) performed for 60-acres of agricultural land generally located at the southeast corner of Euclid Avenue and Schaefer Avenue in the City of Ontario, San Bernardino County, California, referred to as the Property in this report. Converse was retained by RCCD, Inc. to conduct this Phase I ESA. Our study has been conducted in order to identify, to the extent practical, Recognized Environmental Conditions (RECs) in connection with the Property. The term Recognized Environmental Conditions is defined in Section 1.1.1 of the American Society of Testing and Materials (ASTM) Standard Practice as the presence or likely presence of any hazardous substances or petroleum products in, at or on a property due to any release to the environment; under conditions indicative of a release to the environment; or under conditions that pose a material threat of a future release to the environment.

This Phase I ESA was completed in accordance with our proposal dated March 30, 2021. Our work consisted of the following and was completed in general conformance with the scope and limitations of the ASTM Practice E1527-13 and complies with standards and practices set forth in 40 Code of Federal Regulations (CFR) Part 312 for AAI.

- Interviews with the Property owner representatives
- Property and vicinity reconnaissance
- Review of regulatory agency records
- Description of physical setting
- Historical review 2
- Interviews with public agency personnel
- Preparation of this report

## 1.2 Non-Scope Considerations

There are a number of non-scope issues which are sometimes assessed concurrently with a Phase I ESA. Unless specifically agreed in the contract proposal documents, these non-scope considerations are not included as part of the Phase I ESA. Examples of non-scope issues include:

- Asbestos-containing Building Materials
- Biological Agents
- Cultural & Historic Resources
- Diffuse Anthropogenic Pollution
- Ecological Resources
- Emerging Chemicals/Contaminates
- Endangered Species
- · Health & Safety
- Indoor Air Quality
- Industrial Hygiene
- Lead-base Paint
- Lead in Drinking Water
- Mold
- Non-liquid Polychlorinated Biphenyls
- Polyfluoroalkyl Substances
- Radon
- Regulatory Compliance
- Wetlands

No Non-Scope issues were addressed in this report.

## 1.3 Significant Assumptions

No assumptions were made for this assessment that need to be noted as significant.

## 1.4 Limitations and Expectations

The following limitations and exceptions were encountered during the course of this assessment:

- There was no access to various storage containers for dairy equipment throughout the central and northeastern portions of the Property, within the Art Venegas Dairy tenant space (13835 Euclid Avenue).
- Converse did not access the residential structures at 13835 Euclid Avenue (Art Venegas Dairy) or the Drake Family Farm (7235, 7255 & 7277 Schaefer Avenue).
- Former storage/maintenance structures with fire damage adjacent to the Venegas milking barn were not accessed, but limited views of the interior were obtainable.
- A vacant former dairy facility on the northeastern portion of the Property (Photograph No. 33, Drake tenant space) was not accessible.
- Due to vegetative cover, observation of the ground surface was limited underneath dairy equipment/vehicles, including discarded vehicles, observed throughout storage areas on the central and northeastern Property portions within the Venegas Dairy tenant space. Please refer to Figure 3 for the general location of equipment storage areas.

## 1.5 Special Terms and Conditions

No special terms or conditions were identified by the User.

## 1.6 Reliance

This report is for the sole benefit and exclusive use of RCCD, Inc. in accordance with the terms and conditions under which these services have been provided. Its preparation has been in accordance with generally accepted environmental practices. No other warranty, either express or implied, is made. The Scope of Services associated with the report was designed solely in accordance with the objectives, schedule, budget, and risk-management preferences of RCCD, Inc.

This report should not be regarded as a guarantee that no further contamination, beyond that which could be detected within the scope of this assessment, is present at the Property. Converse makes no warranties or guarantees as to the accuracy or completeness of information provided or compiled by others. It is possible that information exists beyond the scope of this assessment. It is not possible to absolutely confirm that no hazardous materials and/or substances exist at the Property. If none are identified as part of a limited scope of work, such a conclusion should not be construed as a guaranteed absence of such materials, but merely the results of the evaluation of the property at the time of the assessment. Also, events may occur after the Property visit, which may result in contamination of the Property. Additional information, which

was not found or available to Converse at the time of report preparation, may result in a modification of the conclusions and recommendations presented.

Any reliance on this report by Third Parties shall be at the Third Party's sole risk. Should RCCD, Inc. wish to identify any additional relying parties not previously identified, a completed Application of Authorization to Use (see Appendix A of this report) must be submitted to Converse Consultants.

Item	Comment
Current Use(s) of the Property	The Property is owned by George R. Phillips of The John
	Te Velde Irrevocable Trust; Zwaantina Te Velde and
	George R. Phillips, Co Trustees, under Survivor's Trust,
	under The Harm and Zwaantina Te Velde Trust; and
	Artevel of California, LLC. It is operated as two (2) dairy
	farms and a nursery (tenants).
	A Property location map, and field generated Property
	and Property detail plans are provided in Appendix B.
	Pertinent Property photographs are provided in Appendix
	C.
Location and Legal Description	The Property is located at the southeast corner of Euclid
	Avenue and Schaefer Avenue, in the City of Ontario,
	California. The Property is located approximately
	1.8-miles south of the California State Routes 60/83
	interchange.
	The Property consists of 11 parcels and is
	approximately 60-acres. The San Bernardino County
	Assessor's Parcel Numbers are:
	Business Park APNs:
	APN 1053-071-01: No address
	APN 1053-071-02: 13813 and 13835 Euclid Avenue
	APN 1053-071-03: No address
	APN 1053-071-04: No address
	APN 1053-081-01: 7235, 7255, 7275, & 7277 Schaefer
	Ave.
	APN 1053-081-03: 7271 Schaefer Avenue
	APN: 1053-081-04: No address
	APN: 1053-211-01: No address
	APN:1053-211-02: No address
	Mixed- Use APN:
	APN: 1053-281-08: No address
	All of the above parcels and addresses were

Item	Comment
	assessed/researched herein.
	The legal description for the Property is as follows: LOTS
	1, 2, 3, 16, 17, 18, 20, 21 AND 35 OF SECTION 18,
	TOWNSHIP 2 SOUTH, RANGE 7 WEST, SAN
	BERNARDINO BASE AND MERIDIAN, ACCORDING TO
	MAP OF SUBDIVISION OF PART OF RANCHO SANTA
	ANA DEL CHINO, AS PER PLAT RECORDED IN BOOK
	6, PAGE 15, OF MAPS, RECORDS OF SAID COUNTY.
	EXCEPTING THEREFROM ANY PORTION LYING
	WITHIN EUCLID AVENUE 200 FEET WIDE, AS
	DESCRIBED IN SUPERIOR COURT CASE NO. 139648
	AND CASE NO. 150425, A CERTIFIED COPY OF
	WHICH WAS RECORDED SEPTEMBER 13, 1972 AS
	INSTRUMENT NO. 614 IN BOOK 8019, PAGE 930 OF
	OFFICIAL RECORDS OF THE COUNTY OF SAN
	BERNARDINO, STATE OF CALIFORNIA.
Zoning Information	According to the City of Ontario, Planning Department,
	the zoning for the Property is AG, which is defined as
Property Characteristics	Agricultural. The Property is an irregular-shaped lot of agricultural land
Property Characteristics	consisting of approximately 60 acres. The Property is
	generally level.
	Please refer to Figure 2, Property Map, and Figure 3,
	Property Detail, for the general locations of the following
	occupant spaces and their uses.
	A goat cheese dairy operation occupies the northeastern
	portion of the Property along Schaefer Avenue (Drake
	Farm at 7235, 7255, and 7277 Schaefer Avenue).
	Pertinent structures include a milking barn, fenced areas
	with shade canopies for goat keeping (animals present),
	an administrative/maintenance building, and storage
	barns. The eastern portion of the Drakes' tenant space,
	near the northeastern Property corner, also includes
	residential structures such as trailers and a single-family
	home. A vacant former dairy building adjoins the

Item	Comment
	residential structures. Photographs No. 32 through 46
	depict Drake Family Farm.
	Approximately three (3) acres of the western portion of
	the Property along Euclid Avenue are occupied by Coco's
	Nursery (no address; western portion of APNs
	1053-071-01 and 1053-071-02), which consists of
	irrigated potted plants, stockpiles of potting soil, and
	storage sheds.
	5
	The remaining northern, northwestern, southern, eastern,
	and western portions of the Property are occupied by Art
	Venegas Dairy (13835 Euclid Avenue; tenant). This
	tenant space encompasses plowed farmland near the
	intersection of Euclid and Schaefer Avenues on the
	northwest, and on the south towards Edison Avenue. A
	catch basin for runoff collection is located on the
	southwestern Property corner. A system of catch basins
	is also located on the eastern Property portion, south of
	Drakes' farm. The central portion of the Art Venegas
	Dairy includes fenced areas with shade canopies for
	cows (animals present), a maintenance shop area, and
	storage areas for farm/dairy equipment/vehicles. The
	Venegas' milking barn and associated residential and
	storage structures are located on the central-west portion
	of the Property along Euclid Avenue. All structures within
	the Venegas' complex are associated with 13835 Euclid
	Avenue, except for a maintenance shed for Southern
	California Edison (SCE) pole-mounted transformer
	equipment (13813 Euclid Avenue) adjacent to the milking
	barn. Photographs No. 1 through 26, No. 29, and No. 48
	depict the Art Venegas Dairy tenant space.
Description of Property Structure(s)	Observed building materials included exterior stucco,
	corrugated sheet metal, plaster, painted drywall, steel,
	concrete masonry unit, brick, and wood.
	Several residential/storage structures on the western
	Property portion (Art Venegas Dairy) were inaccessible
	due to earthquake/structural and fire damage.

Item	Comment
	Utility-owned (SCE) pole-mounted transformer equipment
	and a pertinent maintenance shed (13813 Euclid Avenue)
	were located adjacent to the Venegas' milk barn on the
	central-west portion of the Property. Utility-owned (AT&T)
	antenna equipment, southeast of the transformers, was
	located within the Coco's Nursery tenant space on the
	western portion of the Property.

#### The following services were present at the Property at the time of the assessment.

Item	Comments
Electricity:	SCE
Gas:	Not provided.
Potable Water:	Two on-site water wells (one per dairy operation). A third
	well, located near the northeastern Property corner, was
	decommissioned (date/reason unknown).
Sanitary Sewer:	Property has five (5) to six (6) septic tanks.
Heating, Ventilation,	Wall-mounted units in residential/administrative spaces,
Air Conditioning	and chiller equipment inside milk production areas.
(HVAC):	
Solid Waste:	City of Ontario, Integrated Waste Department

 $\otimes$ 

## 3.0 User Provided Information & Responsibilities

### 3.1 Requested Documents and Information

The ASTM E1527-13 specifies that the User, RCCD, Inc., provide any helpful documents that may be available as listed below.

- Environmental site assessment or environmental compliance audit reports
- Environmental permits or hazardous waste generator notices/reports
- Registrations for aboveground and underground storage tanks
  Septic systems, oil wells, or water wells
- Registrations for underground injection systems
- Safety Data Sheets; Community Right to Know Plans; Safety, Preparedness and Prevention Plans; or Spill Protection Countermeasures and Control Plans
- Reports regarding hydrologic conditions on the Property or surrounding area
- Notices or other correspondence from any government agency relating to past or current violations of environmental laws with respect to the Property or relating to environmental liens encumbering the Property.
- Hazardous waste generator notices or reports
- Geotechnical studies
- Risk assessments
- Recorded Activity Use Limitations (AULs)
- Proceedings regarding hazardous substances and petroleum products including any pending, threatened or past: litigation; administrative proceedings; or notices from any governmental entity regarding possible violations of environmental laws or other possible liability related to hazardous substances or petroleum products.

Mr. Jason Lee of RCCD Inc. provided a plot plan outlining the Property parcels and associated easements for public utilities (central and southern portions of the Property), as well as for roads (northeastern Property portion).

The provided amended preliminary title report, dated May 21, 2021, identified the Property owners and legal description/assessor's parcel maps. Several easements were provided for SCE, and a separate easement for pipelines and aqueducts (1970), the location of which was not disclosed. Liens were recorded in favor of the City of Ontario. According to Mr. Lee, these were recorded regarding weed abatement on portions of the Property.

### 3.2 User Provided Information

Section 6 of ASTM E1527-13 outlines specific User's responsibilities. This information will help identify the possibility of RECs in connection with the Property. The ASTM Standard provides a questionnaire to help the User to comply with the statutory requirements to perform tasks which would help identify RECs. Converse included the questionnaire as Attachment A to our proposal. In general, any Users should make Converse aware of information they have regarding the following:

- Environmental Cleanup Liens filed or recorded against the Property
- Activity and land use limitations that are in place on the Property or have been filed or recorded in a registry.
- Specialized knowledge or experience of the person seeking to qualify for the Legal Liability Protections (LLP)
- Relationship of the purchase price to fair market value of the Property if it were not contaminated
- Commonly known or reasonably ascertainable information about the Property

• The degree or obviousness of the presence or likely presence of contamination at the Property, and the ability to detect this contamination by appropriate investigation.

The following information was requested from the User.

#### 3.2.1 Environmental Cleanup Liens

The User had no information regarding environmental cleanup liens or title records.

From review of the amended preliminary title report provided by the User, liens were recorded in favor of the City of Ontario. Per the User, these were related to weed abatement on portions of the Property.

#### 3.2.2 Activity and Use Limitations

The User did not have any information indicating they were aware of any AULs.

#### 3.2.3 Specialized Knowledge or Experience

The User did not have any information indicating they had specialized knowledge or experience related to the Property or nearby property.

#### 3.2.4 Reason for Significantly Lower Purchase Price

Converse has no information regarding the purchase price of the Property or comparable properties. The User has not indicated to Converse that there is any conclusion that there was a lower purchase price because of known or suspected contamination at the Property.

#### 3.2.5 Commonly Known or Reasonably Ascertainable Information

The User did not have any information about: past uses; specific chemicals at the Property; past spills; environmental cleanup or other reasonably ascertainable information regarding the Property.

#### 3.2.6 Obviousness of Contamination

The User did not have any information based on their knowledge or experience that would be obvious indicators of contamination on the Property.

Unless specifically stated otherwise in the Scope of Services, the purpose of this Phase I ESA was to qualify for the landowner liability protections to CERCLA Liability as described in ASTM E1527-13.

Business risk unrelated to the CERCLA innocent landowners defense are only assessed as specifically agreed in the Scope of Services and discussed in Section 12.0, Additional Non-Scope Services, of this report.

## 3.3 Continuing Obligations

In order to assert a LLP, the User must satisfy a number of statutory requirements that are generally referred to as Continuing Obligations, which are outside the Scope of Services of the Phase I ESA. Examples of Continuing Obligations include providing legally required notices, stopping continuing releases and complying with land use restrictions. Failure to comply with these and other statutory post-acquisition requirements will jeopardize liability protection.

It is the responsibility of the User to comply with the Continuing Obligations requirements of ASTM E1527-13 and AAI. Anyone seeking LLP protections should take independent action beyond this Phase I ESA to perfect their position.

## **4.0 Owner Provided Information**

The ASTM E1527-13 specifies that the Property owner and the Key Site Manager provide any helpful documents that may be available as listed below.

- Environmental site assessment or environmental compliance audit reports
- Environmental permits or hazardous waste generator notices/reports
- Registrations for aboveground and underground storage tanks
- Septic systems, oil wells, or water wells
- Registrations for underground injection systems
- Safety Data Sheets; Community Right to Know Plans; Safety, Preparedness and Prevention Plans; or Spill Protection Countermeasures and Control Plans
- Reports regarding hydrologic conditions on the Property or surrounding area
- Notices or other correspondence from any government agency relating to past or current violations of environmental laws with respect to the Property or relating to environmental liens encumbering the Property.
- Hazardous waste generator notices or reports
- Geotechnical studies
- Risk assessments
- Recorded AULs
- Proceedings regarding hazardous substances and petroleum products including any pending, threatened or past: litigation; administrative proceedings; or notices from any governmental entity regarding possible violations of environmental laws or other possible liability related to hazardous substances or petroleum products.

The owner representative, Mr. Gary R. Phillips of Phillips Law Partnership LLP, provided the following information:

- Underground Tank Closure Report dated September 7, 2011, and related documents, including inspection card, application for removal of underground storage tank (UST), fire department permit, Rule 1166 soil monitoring records, manifests, hazardous waste tank closure certification, certificate of destruction, plot plan, lab results, and chain of custody record. A 550-gallon diesel UST was removed in August 2011 from the former Summerhill Dairy operation on the northeastern portion the Property (7255 Schaefer Avenue; currently Drake Family Farm). The tank had been discovered during a San Bernardino County Fire Department inspection. It was removed by Moine Bros. Removal activities included Volatile Organic Compound (VOC) monitoring, and proper offsite disposal of the tank components and derived rinsate under County of San Bernardino and City of Ontario Fire Department oversight. One (1) soil sample was taken approximately three-feet beneath the tank invert, approximately 12 feet below ground surface (bgs). The sample was non-detect for VOCs. Total Petroleum Hydrocarbons (TPH) were detected at 57 milligram per kilogram (mg/kg) in the C25-C40 range, and lead was detected at 12 mg/kg. These concentrations are below the Department of Toxic Substances Control (DTSC) Human Health Risk Assessment (HHRA) Note 3 (June 2020) recommended Screening Levels for residential soil, and below the Environmental Protection Agency (EPA) Regional Screening Levels (November 2020) for residential soil. Some of the documents estimated the tank capacity at 1,000-gallon; however, upon removal the tank was found to have a volume of 550-gallons. See Appendix H, Owner Provided Documents.
- 2019 AT&T Wireless facilities plans, regarding antenna equipment located on a Southern California Edison electric transmission line tower, which lies within the Coco's Nursery tenant space on the southwestern portion of the Property toward Euclid Avenue.
- 2019 Frontier Communications plans, regarding relocation of telecommunication conduits along the northwestern Property line on Euclid Avenue.

• 2017 Southern California Edison plans, regarding installation of electric transmission conduits along the northwestern Property line on Euclid Avenue.

## **5.0 Records Review**

## 5.1 Physical Setting

Item	Comments			
Physical Setting:	The Property is located approximately 700 to 720 feet above mean sea			
	level with surface topography sloping towards the south (United States			
	Geological Survey [USGS] Topographic Map, Ontario, California, 2012).			
Geology:	The Property is underlain by alluvium, lake, playa, and terrace deposits;			
	unconsolidated and semi-consolidated (Division of Mines and Geology,			
	Geologic Map of California, 2010).			
Groundwater:	According to the Chino Basin Watermaster Depth to Groundwater			
	Contour Map, first groundwater at the Property was located between 125			
	to 150 feet bgs in July of 2016. According to the pertinent Groundwater			
	Elevation Contour Map, the groundwater elevation was approximately			
	570 feet, and the direction of regional groundwater flow was to the			
	south.			
Potable Water Supply:	Potable water is supplied from on-site production wells. One (1) well is			
	located on the central-west Property line near Euclid Avenue (Art			
	Venegas Dairy), and one (1) well is located on the northeastern portion			
	of the Property near Schaefer Avenue (Drake Family Farm).			
	A third well, which has been decommissioned (date unknown), is located			
	near the northeastern Property corner on Schaefer Avenue.			

### 5.2 Historical Review

#### 5.2.1 Aerial Photograph and Map Review

Available historical aerial photographs and maps, which were provided by Environmental Data Resources (EDR), were reviewed. A summary of the review is provided in the following table. Copies of the aerial photographs and maps are provided in Appendix D.

Sanborn Fire Insurance Maps were requested from EDR. According to EDR, there is no Sanborn map coverage of the Property.

#### 5.2.2 Building Permit Review

Available building permits were reviewed at the City of Ontario, Department of Building & Safety. The following addresses/APNs comprising the Property were researched:

APN 1053-071-01: No address APN 1053-071-02: 13813 and 13835 Euclid Avenue APN 1053-071-03: No address APN 1053-071-04: No address APN 1053-081-01: 7235, 7255, 7275, and 7277 Schaefer Avenue APN 1053-081-03: 7271 Schaefer Avenue APN 1053-081-04: No address APN 1053-211-01: No address APN 1053-211-02: No address APN 1053-281-08: No address

The department only had records on file for 13813 Euclid Avenue (Assessor's Parcel Number 1053-071-02):

Permits were issued in March of 2003 regarding electrical panels and a meter reset for electrical power to a water well pump (10 to 50 horsepower). The owner was noted as Martin Dairy. The electrical utility was noted as SCE.

#### 5.2.3 City Directories

A city directory search was completed on the Property by EDR. The complete city directory is provided in Appendix D, Historical Research.

#### 13813 South Euclid Avenue

The Property was identified with a residential listing in city directories published as early as 1965. Between 2003 and 2008, the Property was identified as residential listings.

#### 13835 Euclid Avenue

Between 2003 and 2008, the Property was identified as residential listings, and as Coco's Nursery.

#### 7255 Schaefer Avenue

In 1975, the Property was identified as Artevel Farms. Between 2003 and 2008, the Property was identified as residential listings.

The adjacent properties were not identified in the researched city directories.

#### 5.2.4 Data Failure

Historical information regarding the Property indicated the Property was undeveloped land as early as 1897. Therefore, no historical data failure occurred during this assessment.

#### 5.2.5 Summary of Historical Property Use

Historically, as early as 1897 the Property was undeveloped land. From as early as 1933, structures were evident along the northeastern and western Property lines, which were associated with agricultural operations by 1938. Between 1946 and the present, the Property was used agriculturally, including one (1) dairy operation on the western portion of the Property, and another dairy operation on the northeastern portion of the Property. From as early as 2006, the current day nursery operation on the southwestern portion of the Property was noted as well.

#### 5.2.6 Summary of Past Uses of Adjoining Properties

As early as 1897, the adjoining properties were undeveloped land. By 1902, apparent residential structures were noted on adjoining properties. From as early as 1938, agricultural uses were noted as well, including row crops. Commercial developments were noted as early as 1959. By 1975, most of the north and east adjoining land was occupied by dairy farms, and commercial uses were concentrated to the southwest and west. Commercial, as well as residential uses, remain to the west along Euclid Avenue until the present day, whereas north and east adjoining land remains for agricultural use. Part of this land is currently fallow/vacant.

#### 5.2.7 Summary of Past Uses of the Surrounding Area

Residential uses were evident in the surrounding area from as early as 1897. Agricultural uses were noted as early as 1938. By 1959, commercial developments were also evident.

Large portions of the surrounding land remain for agricultural use through the present day.

#### 5.3 Results of Environmental Records Sources Review

An EDR report of Standard Environmental Record Sources (Records) was prepared specifically for the Property. The search included queries to the following databases for cases within specified ASTM search distances. A copy of the database report is provided in Appendix E.

#### 5.3.1 Property Listings

The Property was identified on the following databases in the EDR report.

Property Listings	
Site Name:	DRAKE FAMILY FARMS
Databases:	San Bern. Co. Permit, CERS
Address:	7255 SCHAEFER AVE

Comments:	Underground Storage Tank (UST) inspection record noted a UST removed in
	2011. Hazardous material handler permits included. Cited during San Bernardino
	County Fire Department inspections in 2014 to 2020, regarding business plan
	updates and hazardous material reporting.

Site Name:	ART VENEGAS DAIRY
Databases:	San Bern. Co. Permit, HWTS
Address:	13835 EUCLID AVE
Comments:	Conditionally Exempt Small Quantity Generator of hazardous waste (active) and
	hazardous materials handler (inactive).

Site Name:	ART VENEGAS DAIRY - EUCLID
Databases:	CERS HAZ WASTE, CERS, ENF, CIWQS, San Bern. Co. Permit
Address:	13835 EUCLID AVENUE
Comments:	Listed regarding stormwater runoff from a confined animal feeding facility.
	13835 Euclid Avenue (western portion of the Property) listed regarding AT&T antenna equipment.
	2014 to 2020 violations included a citation regarding a 275-gallon waste oil tote
	that was broken with contents exposed noted during a San Bernardino Fire
	Department inspection. Also issues regarding storage times of waste oil and
	hazardous material record keeping/labeling.

## 5.3.2 Adjoining Properties

The following adjoining properties were identified in the EDR report:

Adjoining Properties		
Site Name:	GERMANIA DAIRY CENTER	
Databases:	SWEEPS UST, CA FID UST	
Address:	14058 EUCLID AVE	
Distance:	221	
Direction:	SSW

Comments:	Inactive	

Adjoining properties' listings regarding Leaking Underground Storage Tank cases are not RECs based on regulatory closure, distance from the Property, and media (soil) affected.

Listings regarding hazardous material use/hazardous waste generation are not RECs based on no significant release records, offsite disposal and regulatory compliance inspections.

#### 5.3.3 Other Off-site Locations of Concern

Other off-site locations of concern identified by EDR within a maximum one-mile radius from the Property included registered UST sites, LUST sites, hazardous waste generators, permitted hazardous materials handlers, and FINDS, ECHO, HAZNET, HWTS, HIST CORTESE, CERS, CERS HAZ WASTE, CERS TANKS, HIST UST, SWEEPS UST, CA FID UST, SWF/LF, ENF, CIWQS, DRYCLEANERS and ENVIROSTOR database listings.

The potential for environmental concern to the Property from these off-site locations appears to be low due to one or more of the following: type of regulatory listing; type of resource (soil) affected, location with respect to the direction of regional groundwater, distance from the Property; status of the case; and/or regulatory closure.

#### 5.3.4 Orphan Listings

The EDR database report identified seven (7) orphan listings. The locations of sites that were identified by address were found to be in the general vicinity of the Property; however, due to distance, location with respect to the direction of regional groundwater, and/or type of listing were determined to have a low potential for environmental concern to the Property.

Other orphan sites were identified only by street name. These street names were found in the general vicinity of the Property; however, the specific site locations could not be determined. These orphan sites appeared to have a low potential for

environmental impact to the Property due to one or more of the following: type of regulatory listing; estimated distance from the Property; remedial efforts being directed by a regulatory agency; and/or potential responsible parties have been identified.

## 5.4 Additional Environmental Record Sources

The following addresses were researched for the Property.

- 13813 and 13835 Euclid Avenue
- 7235, 7255, 7271, 7275 and 7277 Schaefer Avenue

Water Quality Control	Euclid Avenue (Art Venegas Dairy). All other addresses/APNs
Board (RWQCB)	associated with the Property yielded no search results.
	May 2010 Waste Discharge Requirements for Art Venegas Dairy - The
	document confirmed the acceptance of the facility's Notice of Intent and
	Engineered Waste Management Plan (EWMP).
	Annual Reports of Animal Waste Discharge (2012 to 2019) -
	Approximately 200 to 300 animals, approximately 40 to 300 tons of
	manure stockpiled on-site annually, and approximately 350 to 750 tons
	of manure hauled offsite annually were noted, as well as two (2) milkings
	per day. Approximately 10 to 40 acres of cropland (alfalfa, bermuda
	grass, pumpkins and oats) on-site were indicated as the location of

#### **State Agencies**

Source	Comments
	manure application. The cropland was planted once per year. No
	discharge incidents were reported regarding Concentrated Animal
	Feeding Operation (CAFO) stormwater management. The pertinent
	manure manifests were provided for each year.
	April 2012 correspondence regarding a violation of the California Water Code (CWC) by Art Venegas Dairy - Payment options were outlined for penalties due to lateness of the Annual Waste Discharge report.
	2014 to 2016 inspection reports by the Santa Ana Regional Water Quality Control Board (RWQCB) - The routine, non-sampling inspections noted no violations. The overall rating of the Venegas facility was noted as satisfactory. Three (3) to five (5) inches of corral manure and several large manure piles were observed. The catch basin/pasture area maintenance was evaluated as adequate, and the housekeeping as marginal.
	May 2019 Notice of Intent regarding compliance with the General Permit to Discharge Wastes from Concentrated Animal Feeding Operations (CAFO) by Art Venegas. The document indicated that the 60-acres of the Property include 15 acres of corrals, 25 acres of cropland, and 20 acres of disposal/pasture. The pertinent discharge authorization was issued on July 15, 2019.
	July 2019 inspection report by the Santa Ana Regional Water Quality Control Board (RWQCB) - Noted issues included manure excess inside the corrals and additional manure stockpiled outside the corrals. Remains of deceased cows were noted at one stockpile location.
	The Geotracker website (http://geotracker.waterboards.ca.gov/) was reviewed for information, and the Property was not listed in the database.

South Coast Air	The following document was on file with SCAQMD.
Quality Management	
District (SCAQMD)	June 2020 Facility Equipment List Report for Tony Martin Dairy at 13813
	Euclid Avenue - Applications for Agop's Emergency Internal Combustion
	Engine (50 to 500 horsepower) and for Agop's Dairy were cancelled due
	to non-payment. The facility was noted as out of business.
San Bernardino	In addition to the documentation for the August 2011, 550-gallon diesel
County Fire Protection	UST removal outlined in Section 4.0 (Owner Provided Information), the
District (CUPA)	following documents were on file with the County.
	2020 hazardous materials inventory for Drake Family Farms at 7255 Schaefer Avenue - Noted chemicals included alkaline cleaner (30 gallons), bleach (110 gallons), and phosphorous/nitric acid (30 gallons). Associated 2011 to 2020 inspections noted no hazardous wastes. Citations included overdue business plan reviews. Certified Unified Protection Agency (CUPA) hazardous materials permits (1-3 chemicals) were issued between 2012 and 2015.
	A former occupant at 7255 Schaefer Avenue, Summerhill Dairy, was noted with hazardous material permits between 2009 and 2011. In addition to the 550-gallon UST removed from this facility in 2011, fire department inspections in May 2007 also noted a 1,000-gallon diesel aboveground storage tank (AST) at the southwest end of the facility's yard (northeastern portion of the Property). Another AST (500-gallon diesel) was observed during the same May 2007 inspection at the northwest end of the facility's yard. No further documentation regarding these two (2) ASTs was available. Converse did not observe any fuel ASTs during the July 2, 2021 reconnaissance.
	2020 hazardous material inventory for Art Venegas Dairy (13835 Euclid Avenue) - Noted chemicals included two (2), 275-gallon totes of waste oil; two (2), 55-gallon drums of hydraulic oil; one (1), 55-gallon drum of teat dip; and one (1), 55-gallon drum of enzyme cleaner. Citations
	included record keeping/hazardous waste labeling violations and

## 6.0 Property Reconnaissance

### 6.1 Methodology

On July 2, 2021 Converse visited the Property to evaluate present use and to identify observable environmental conditions at the Property. Our methodology involved walking the perimeters, center lines, and accessible interior areas of the buildings while noting observed evidence of present and potential environmental concerns.

Field-generated maps are provided in Appendix B. Pertinent Property photographs are provided in Appendix C.

## 6.2 Limiting Conditions

Converse's findings are based on the Property conditions observed on July 2, 2021.

The following limitation was encountered during the reconnaissance:

- There was no access to various storage containers for dairy equipment throughout the central and northeastern portions of the Property, within the Art Venegas Dairy tenant space (13835 Euclid Avenue).
- Converse did not access the residential structures at 13835 Euclid Avenue (Art Venegas Dairy) or the Drake Family Farm (7235, 7255 & 7277 Schaefer Avenue).
- Former storage/maintenance structures with fire damage adjacent to the Venegas milking barn were not accessed, but limited views of the interior were obtainable.
- A vacant former dairy facility on the northeastern portion of the Property was not accessible.
- Due to vegetative cover, observation of the ground surface was limited underneath dairy equipment/vehicles, including discarded vehicles, observed throughout storage areas on the central and northeastern Property portions within the Venegas Dairy tenant space.

### 6.3 Interior Observations of Property

During our Property visit, Converse made the following observations of the interior of the Property's building(s):

Interior Observations of Property				
Item or Condition	Observed	Comments		
	Evidence?			
Hazardous Substances &	Yes	Three (3), 55-gallon drums of alkaline and acid		
Petroleum Products:		cleaners were observed inside the hazardous		
		materials storage room of the Drakes' Farm milking		
		barn at 7255 Schaefer Avenue on the northeastern		
		portion of the Property. Corrosion and de minimis		

Item or Condition	Observed	Comments
	Evidence?	
		staining was evident throughout the room
		(Photograph No. 43). A nearby storage shed for
		livestock feed supplements also contained a
		compressed gas cylinder of argon for welding. Inside
		the farm's maintenance shop, five (5) bags of water
		softener salt and several one-gallon cans of pains
		and sealants were stored. A wooden cage inside the
		shop contained four (4), three-gallon, and two (2),
		one-gallon containers of gasoline and diesel fuel, as
		well as several small containers of two-stroke engine
		additives.
		Inside the Venegas Farm's milking barn at 13835
		Euclid Avenue on the western portion of the Property
		on Euclid Avenue, Converse observed two (2),
		50-pound bags of copper sulfate and a 10-gallon
		container of sanitizing teat dip. The barn's
		electrical/compressor room contained a small
		container of Freon 134a refrigerant. One (1),
		55-gallon drum of acid cleaner, a 10-gallon container
		of enzyme cleaner, and a five-gallon bucket of
		medicated skin treatment product for cows were
		inside an adjacent work room. De minimis floor/wall
		staining noted (Photograph No. 3).
Storage Tanks & Related	No	
Equipment:

Transformers or Equipment	Yes	The Venegas' milk barn electrical room contained
containing Polychlorinated		one dry-type transformer.
Biphenyls (PCBs):		

Item or Condition	Observed	Comments
	Evidence?	
Heating/Cooling System:	Yes	Wall-mounted air conditioning units noted in
		residential spaces throughout. Chiller equipment
		associated with milk production areas.
Stains or Corrosion on	Yes	De minimis corrosion/staining inside respective
Floors, Walls, or Ceilings:		hazardous material storage rooms. Please see
		Hazardous Materials & Petroleum Products above.
Drains and Sumps:	Yes	Several floor/trench drains were observed
		throughout the two (2) on-site dairies' milking barns.

In addition to above items, Converse also observed the following:

An operations shed associated with SCE transformer equipment on the western portion of the Property (13813 Euclid Avenue) contained electrical and compressor equipment. No leaks/stains were observed.

Observed milking barn equipment included electrical water heaters, milk collection/pasteurizing tanks, compressors and other refrigeration components, air compressors for suction and other milking apparatuses, and valve equipment associated with washing stations.

Inside vacant storage/maintenance structures adjacent to the Venegas' milk barn, which were inaccessible due to earthquake/fire damage, maintenance spare parts, dairy hardware, filters and compressor equipment were observed through window openings.

A former AT&T communications room for electrical components was located north adjoining the Venegas' farm structures (northwestern portion of the Property).

Hydroponic nursery components were stored inside a room adjoining the Drakes' maintenance shop on the northeastern portion of the Property. A nearby vacant former dairy facility within the Drake tenant space (former owner/occupant unknown) contained two (2) milk collection/pasteurizing tanks inside a room on the north which were observed through a window. The facility was inaccessible.

#### 6.4 Exterior Observations of Property

During our Property visit, Converse made the following observations of the exterior of the Property:

Exterior Observations		
Item or Condition	Observed	Comments
	Evidence?	
Hazardous Substances &	Yes	Farm equipment/vehicles throughout the
Petroleum Products:		maintenance shop area on the central portion of the
		Property (Art Venegas Dairy) included gardening
		equipment, compressors, and tractors.

Item or Condition	Observed	Comments
	Evidence?	
		Approximately 80 used tires were stored on a nearby
		rack. Converse observed multiple one to five-gallon
		containers of vehicle maintenance fluid containers. A
		total of approximately 35 empty, 55-gallon poly
		drums, labeled as disinfectants/sanitizing liquids
		were noted throughout the area. Per Mr. Venegas,
		the drums are cut open to store/handle brewery
		(malt) waste which is used as supplementary cow
		food. A wood pallet held 14 car batteries. Adjacent to
		the pallet an open five-gallon bucket with waste oil
		was noted. The maintenance shop area featured an
		intact concrete floor. South of the area, discarded
		automobiles were stored on the unimproved ground.
		A nearby approximately 500-gallon storage tank for
		liquid fertilizer, and an unlabeled 55-gallon metal
		drum were empty.
		On the exterior of the Drakes' milking barn,
		Converse noted a 55-gallon drum and a 10-gallon
		container with sanitizing agents under a canopy. A
		diesel generator with a 26-gallon tank was stored in
		the same area, as well as six (6), 55-gallon drums
		for acid sanitizer. An adjacent large tank was
		identified as dairy equipment for pasteurizing/milk
		processing purpose, per the on-site manager, Mr.
		Mike Carrasco of Drake Family Farms. On the
		exterior of an east adjacent vacant former dairy
		facility (name/address unknown), an apparently
		non-operational emergency generator was located.
		One-gallon containers with vehicle fluids remained
		on the exterior the building. De minimis staining of
		the unimproved ground observed.
		Throughout the storage spaces on the central-north
		portion of the Property (Venegas Dairy), which were
		partially covered by shade structures, multiple farm
		vehicles, as well as refrigeration equipment
		components, were stored. Per Mr. Venegas,

Item or Condition	Observed	Comments
	Evidence?	
		materials from demolition of offsite dairy facilities are
		stored for resale. According to Mr. Venegas, storage
		containers observed adjacent to the equipment
		contain similar items. Used tires of larger farm
		vehicles were among the items. In the same general
		area, Converse noted a total of eight (8), 275-gallon
		totes and 25, 55-gallon poly drums (previously
		labeled as alkaline cleaner). All were used, or
		cleaned for use with the above mentioned brewery
		waste for cow feeding.
Storage Tanks & Related	Yes	A maintenance shop area associated with the
Equipment:		Venegas dairy (13835 Euclid Avenue), which was
		located on the central portion of the Property,
		included a 300-gallon AST for diesel. The tank was
		mounted on a steel frame above a drain. De minimis
		ground staining was observed on the concrete floor
		in the general area.
Odors:	No	
Standing Surface Water or	No	
Other Pools of Liquid:		
Drums & Other Containers	Yes	Please see Hazardous Materials & Petroleum
of Hazardous Substances,		Products above.

containing Polychlorinated		adjacent to the Venegas' milking barn. A nearby
Biphenyls (PCBs):		transmission line tower features AT&T antenna, and
		associated components inside a brick enclosure.
Pits, Ponds, or Lagoons:	Yes	A runoff catch basin is located on the southwestern
		Property corner. It was dry on the day of Converse's
		reconnaissance (July 2, 2021). An intermediate
		catch basin on the southwestern portion of the
		Property contained water. An east adjacent runoff
		channel was filled with water as well. A system of
		catch basins on the eastern part of the Property was
		only partially filled with water.
Stained Soil or Pavement:	No	

Item or Condition	Observed	Comments

discharge (including storm		
water) into a Drain, Ditch, or		
Stream on or Adjacent to		
the Property:		
Wells (active, inactive, or	Yes	The two (2) dairy operations feature one (1) active
abandoned):		water well each. A third well near the northeastern
		Property corner was decommissioned.
Septic Systems or	Yes	Three (3) septic tanks were identified at the
Cesspools:		Venegas' farm, and two (2) septic tanks were
		identified at the Drakes' farm.
Prior Structures:	No	
Roads, Tracks, Railroad	Yes	Schaefer Avenue bounds the Property on the north;
Tracks or Spurs:		and Euclid Avenue bounds the Property on the west.

In addition to above items, Converse also noted the following:

Irrigation valve equipment was located adjacent to the Edison maintenance shed next to the Venegas Dairy milk barn.

Used dairy components for resale are stored on the central portion of the Property. It included multiple milk and water tanks, and electrical switch and compressor equipment.

Water utility test location covers were located on the northeastern Property line along Schaefer Avenue.

A storm drain was noted on the central portion of the Drakes' Dairy. A nearby work station comprised of tools/ingredients for goat cheese preparation. Chiller/boiler equipment on the milking barn exterior included a water storage tank and pressure vessels.

East adjoining farmland/cattle facilities featured farm machinery/materials storage yards adjacent to the respective Property line.

Adjacent to the southwestern Property line (offsite), Converse noted a large pile of concrete/construction debris.

Feedstock for cows and produce waste were staged south of the maintenance shop area on the central section of the Property. Five manure piles were noted throughout corrals on the western and central portions of the Property (Art Venegas Dairy).

#### 6.5 Current Uses of Adjoining Properties

Based on our research and observations during our Property visit, the Property is bordered by the following:

	Adjoining Property Use		
Direction	Current Development		
North	Schaefer Avenue, followed by corn crops.		
Northeast	Schaefer Avenue, followed by plowed agricultural land.		
Northwest	Schaefer Avenue and Euclid Avenue, followed by agricultural land.		
South	A truck yard, a vacant parcel, and a storage yard.		
Southeast	A residential structure (7226 Edison Avenue)		
Southwest	Euclid Avenue, followed by warehouses (14058 Euclid Avenue).		
East	A residential structure (7365 Schaefer Avenue), vacant land, and farmland,		
	including equipment/vehicle storage yards.		
West	Euclid Avenue, followed by a commercial center, including Subway,		
	Starbucks and Carl's Junior (7041, 7055, and 7069 Schaefer Avenue); a		
	residential development (13817 Farmhouse Avenue); a trailer storage yard;		
	and Robert R. Ford truck dealership (14042 Euclid Avenue).		

#### 6.6 Current Uses of Surrounding Area

Based on our research and observations during our Property visit, the surrounding area of the Property consists of residential, agricultural, and commercial uses. Commercial uses include a truck driving school, a church, retail stores, and restaurants.

# 7.0 Interviews

During the interviews, the owners and occupants were asked if they had any available documents that would be helpful. The documents that were requested are detailed in Section 4.0 of this report:

Interview:	Comments:
Property Owner:	According to Mr. Gary R. Phillips, representative for Artevel of California
	LLC (Property owner since 2008), from the mid to the late 1960's, the
	Property was owned by Harm and Zwaantina te Velde, and was gifted to
	various irrevocable trusts for the benefit of their children, some of whom
	are members of the current ownership.
	Mr. Phillips stated that up to six (6) septic tanks are located on the
	Property. On the day of Converse's Property reconnaissance (July 2,
	2021), five (5) septic tank locations were indicated to Converse by Mr.
	Carrasco of Drake Family Farms and Mr. Venegas of Art Venegas Dairy.
	Mr. Phillips was not aware of any environmental concerns in connection with the Property.
Tenant/ Occupant:	Mr. Adrian Venegas of Art Venegas Dairy identified three (3) septic
	tanks associated with his dairy operation. He indicated that the only
	reportable hazardous waste on-site was manure, which needs to be
	tracked by the RWQCB prior to on-site disposal. Five (5) manure piles
	were observed by Converse throughout the corrals on the central and
	western portions of the Property. According to Mr. Venegas, manure
	stockpiles stored inside the corrals on the central-west portion of the
	Property are applied to cropland on the northwestern, central, and
	southern portions of the Property. Pumpkins are the main crops which is
	sold on-site in the fall.
	Mr. Venegas stated that sanitizers and other dairy related chemicals are
	replenished by Specialized Dairy Services, who also hauls the spent
	drums of sanitizer/cleaning agents. He indicated the 300-gallon diesel
	AST in the central maintenance shop area as the only petroleum product
	storage for his dairy operation. Mr. Venegas stated the storage
	containers observed throughout the Venegas Dairy on the central and
	northeastern portions of the Property contained equipment from
	demolition of offsite dairy operations. The equipment is resold, including

Interview:	Comments:
	milk processing apparatuses, electric switch panels, and refrigeration
	components.
	Upon Converse's request, Mr. Venegas inquired with Coco's Nursery
	staff whether any fertilizers/chemicals are stored at the nursery. He
	indicated that stock piles of potting soil on the unimproved ground is the
	only material stored on-site for plant production.
	Mr. Mike Carrasco of Drake Family Farms identified two (2) septic tanks
	throughout his facility, which are pumped by Ary Septic. He too stated
	that Specialized Dairy Services delivers/hauls all hazardous
	materials/empty drums. Mr. Carrasco indicated that the only petroleum
	product storage for his facility was inside the maintenance shop were
	small containers of diesel and gasoline are located.
State or Local	Other than the information provided in Section 5.4, no other information
Government	was provided by a government official.

# 8.0 Findings

A cursory summary of findings is provided below. However, details were not included or fully developed in this section, and the report must be read in its entirety for a comprehensive understanding of the items contained herein.

- The Property is owned by George R. Phillips of The John Te Velde Irrevocable Trust; Zwaantina Te Velde and George R. Phillips, Co Trustees, under Survivor's Trust, under The Harm and Zwaantina Te Velde Trust; and Artevel of California, LLC. It is occupied by two (2) dairy farms and a nursery (tenants).
- The Property was identified as 13813 and 13835 Euclid Avenue, and 7235, 7255, 7271, 7275, and 7277 Schaefer Avenue.
- Historically, as early as 1897, the Property was undeveloped land. From as early as 1933, structures were evident along the northeastern and western Property lines, which were associated with agricultural operations by 1938. Between 1946 and the present, the Property was used agriculturally, including one (1) dairy operation on the western portion of the Property, and another dairy operation on the northeastern portion of the Property. From as early as 2006, the present day nursery operation on the southwestern portion of the Property was noted as well.
- The Property was identified on the following regulatory databases: CERS, HWTS, CERS HAZ WASTE, ENF, CIWQS, and San Bern. Co. Violations were noted regarding hazardous material reporting and housekeeping practices at the Property. A UST on the northern Property portion, operated by a historical occupant, was removed and received regulatory closure in 2011. From observations and interviews during Converse's reconnaissance, current on-site petroleum product storage is limited to one (1), 300-gallon AST for diesel at Art Venegas Dairy. The Drake Family Farm operation only stores petroleum product in one to three-gallon containers.
- Art Venegas Dairy (13835 Euclid Avenue) disposes of manure on-site. Five (5) manure piles were observed throughout the corrals on the central and western portions of the Property.
- Five (5) or six (6) septic tanks of unknown capacity are located on the Property. There (3) tanks are associated with the Venegas Dairy buildings (milk barn and two (2) residential structures), and two (2) tanks are located at the Drake Dairy facility. The location of the sixth tank location is unknown.
- Each of the two (2) dairies features one (1) active water well. A decommissioned water well is found near the northeastern Property corner.
- Catch basins for dairy runoff are located on the Property.
- Observed chemicals inside production areas for both on-site dairies included 55-gallon poly drums of acid/base cleaners and disinfectants, and five-gallon containers of medicated ointments/dips for animals. Compressed gas cylinders for welding gases, car/equipment batteries, and tires were stored in maintenance areas, mainly on the central-west portion of the Property (Venegas Dairy). Abandoned vehicles/equipment were noted in the same general area, and also in storage areas on the northeastern portion of the Property.
- As early as 1897, the adjoining properties were undeveloped land. By 1902, apparent residential structures were noted on adjoining properties. From as early as 1938, agricultural uses were noted as well, including row crops. Commercial developments were noted as early as 1959. By 1975, most of the north and east adjoining land was occupied by dairy farms, and commercial uses were concentrated to the southwest and west. Commercial, as well as residential uses, remain to the west along Euclid Avenue until the present day, whereas north and east adjoining land remains for agricultural use. Part of this land is currently fallow/vacant.
- Adjoining property regulatory database listings included, but were not limited to LUST, CERS HAZ WASTE, CORTESE, CERS TANKS, San Bern. Co. Permit, and CERS database listings. Pertinent historical Leaking Underground Storage Tank (LUST) cases on adjoining properties all received regulatory closure. All cases were limited to soil contamination only. Regulatory compliance inspections by the San Bernardino County

Fire Department were noted for all hazardous material handlers/hazardous waste

The surrounding area of the Property consists of residential, agricultural, and commercial uses. Commercial uses include a truck driving school, a church, retail stores, and restaurants.

# 9.0 Opinion

Agricultural use from as early as 1938 is a REC due to potential residual contamination from agricultural chemical use.

On-site dairy operations and associated chemicals and equipment from as early as 1946 is a REC. The potential for buried manure is a concern.

The five (5) or six (6) on-site septic tanks are located on the Property. These septic systems are not considered RECs.

The former UST on the northeastern portion of the Property is not a REC based on no significant release records, offsite disposal, and regulatory closure.

Property listings regarding hazardous materials/wastes are not RECs due to offsite disposal and regulatory compliance inspections.

Adjoining properties' listings regarding LUST cases are not RECs based on regulatory closure, distance from the Property, and media (soil) affected. Listings regarding hazardous material use/hazardous waste generation are not RECs based on no significant release records, offsite disposal and regulatory compliance inspections.

No significant data gaps were identified that affect the ability of the Environmental Professional (EP) to identify RECs.

There are no unusual circumstances where greater certainty is required regarding RECs.

#### **10.0 Conclusions and Recommendations**

Converse has performed a Phase I Environmental Site Assessment in general conformance with the scope and limitations of ASTM Practice E1527-13 for Euclid Avenue and Schaefer Avenue, Ontario, San Bernardino County, California. Any exceptions to or deletions from this practice are described in the Limitations and Exceptions of Assessment section of this report. This assessment has revealed no evidence of *recognized environmental conditions* in connection with the Property except for the following:

- Agricultural use from as early as 1938 is a REC due to potential residual contamination from agricultural chemical use.
- On-site dairy operations and associated chemicals, manure, and equipment, from as early as 1946 are RECs.

Based on this assessment, Converse has the following recommendation:

- Soil sampling over the Property. Areas to be assessed should include the farmland, catch basins, maintenance areas, AST (and drain located underneath the AST) & UST areas, and livestock/manure areas.
- Containers of hazardous materials, equipment, and tires should be removed from the Property prior to acquisition. If these items are left on-site, they will need to be disposed of in accordance to applicable regulations.
- A methane assessment in accordance with the City of Ontario requirements should be conducted.

## **11.0 Deviations and Limitations**

The following deviations and/or limitations from the ASTM Standard were encountered during this assessment:

- There was no access to various storage containers for dairy equipment throughout the central and northeastern portions of the Property, within the Art Venegas Dairy tenant space (13835 Euclid Avenue).
- Converse did not access the residential structures at 13835 Euclid Avenue (Art Venegas Dairy) or the Drake Family Farm (7235, 7255 & 7277 Schaefer Avenue).
- Former storage/maintenance structures with fire damage adjacent to the Venegas milking barn were not accessed, but limited views of the interior were obtainable.
- A vacant former dairy facility on the northeastern portion of the Property was not accessible.
- Due to vegetative cover, observation of the ground surface was limited underneath dairy equipment/vehicles, including discarded vehicles, observed throughout storage areas on the central and northeastern Property portions within the Venegas Dairy tenant space.

## **12.0 Additional Non-Scope Services**

There are environmental issues outside the scope of the ASTM E1527-13 that can be assessed in connection with a commercial real estate transaction. These are dealt with as non-scope considerations since they do not typically present a Superfund Liability. The specific level of inquiry (if any) is defined in the Proposal which contains a Scope of Work. These non-scope services are very client specific and not covered by the ASTM standard. They are frequently related to the business environmental risk which is defined in the standard as "risk which can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of a parcel of commercial real estate".

No non-scope issues were addressed during this assessment.

### **13.0 Signature of Environmental Professional**

I declare that, to the best of my professional knowledge and belief, I meet the definition of Environmental Professional as defined in §312.10 of 40 CFR 312.

I have the specific qualifications based on education, training and experience to assess a property of the nature, history, and setting of the subject property. I have developed and performed the all appropriate inquiries in conformance with the standard and practices set forth in 40 CFR Part 312.

This Phase I ESA was completed by the above Environmental Professional. A complete list of preparers, and their responsibilities for this assessment, is provided in the following section (Section 14.0, List of Preparers).

#### 14.0 List of Preparers

Norman S. Eke

Senior Vice President

B.A., Liberal Studies, Environmental Studies Emphasis, University of California, Santa Barbara, 1988. Cal/OSHA Certified Asbestos Consultant, #96-2093 NIOSH 582 Equivalent Training

Senior Vice President and Managing Officer of Converse's California Environmental offices. Mr. Eke has served as the Principal-in-Charge and Contract Administrator to deliver services to our public agency and private clients. Mr. Eke has 31 years of experience in the fields of Environmental Due Diligence including Phase I and Phase II Environmental Site Assessments, Asbestos surveys/specifications/abatement monitoring, Preliminary Endangerment Assessments and associated Supplemental Site Investigations and Removal Action Work Plans/Implementation, various forms of Remediation, Human Health Risk Assessment and Indoor Air Quality. Mr. Eke is a former Subcommittee Chairman for E.50-02 Real Assessment and Management of the ASTM E.50 Committee on Environmental Assessment, Risk Management, Corrective Action, which includes Phase I ESA standards.

Principal area of responsibility for this ESA report: Client Point of Contact., Report Review

#### Laura Tanaka

Principal Environmental Scientist

B.S., Biology, California State Polytechnic University, Pomona, 1987 Cal/OSHA Asbestos Consultant, 11-4708 CDPH Certified Lead Inspector/Assessor, #I-3086 CDPH Certified Project Designer, #D-3086 CDPH Certified Project Monitor, #M-3086

Ms. Tanaka is currently responsible for the day-to-day operations of the Costa Mesa office. Ms. Tanaka has 30 years experience with Phase I and II ESAs, Preliminary Endangerment Assessments, asbestos surveys, lead-based paint surveys, abatement monitoring, as well as hazardous material audits, completing business plans, and SCAQMD permitting. Current duties at Converse include project management, business development and client maintenance, conducting/managing ESAs, and completing third party documents reviews.

Principal area of responsibility for this ESA report: Project Management, Client Contact, Historical Research, Regulatory Agency Interaction, Property Reconnaissance, Interviews, and Report Generation and Review.

#### Kaspar Wittlinger

Senior Staff Environmental Scientist

B.S., Environmental Engineering, The City College of New York, New York, 2016 EIT Certificate #162789, Sacramento, CA

Mr. Wittlinger has 14 years of professional experience collaborating on international construction and site remediation projects. As an Engineer in Training he has resolved permitting issues in public spaces with strategic water and soil sample collection, pertaining data analysis, and presentation of recommendable courses of action. He has designed customized systems for water and soil best management practices. Mr. Wittlinger has experience conducting Environmental Site Assessments as part of the due diligence process.

Principal area of responsibility for this ESA report: Historical Research, Regulatory Agency Interaction, Property Reconnaissance, Interviews, and Report Generation.

1. Art Venegas Dairy (tenant) milk barn at 13835 Euclid Avenue (west).

2. Venegas milking barn interior.

3. Venegas milking barn work room.

4. Disinfectant storage inside work room.

5. Single-family home south adjacent to milk barn (also 13835 Euclid Avenue). The structure was not accessed.

6. SCE equipment shed at 13813 Euclid Avenue (associated with pole-mounted transformers adjacent to single-family home).

7. Water well equipment within in Venegas Dairy complex on Euclid Avenue (west).

8. Vacant residential structure north adjacent to milk barn (included with 13835 Euclid Avenue). The structure was not accessed (earthquake damage).

9. Vacant buildings adjacent to vacant residential structure (included in 13835 Euclid Avenue).

10. Interior of vacant building adjacent to vacant residential structure (fire damage noted).

11. View of milk cow corals on central portion of the Property (manure piles in background to right).

12. Totes used for malt waste from breweries (feed stock for cattle).

13. Empty disinfectant poly drum washing area on central portion of the Property.

14. Equipment storage from dismantled off-site dairy operations on central Property portion (for resale).

15. Equipment storage from dismantled off-site dairy operations (for resale).

16. 300-gallon diesel AST in maintenance area on central portion of the Property (Art Venegas Dairy).

17. Drain below the diesel AST.

18. Storage of approximately 80 used tires adjacent to the AST.

19. View of maintenance shop on central portion of the Property (Art Venegas Dairy).

20. Empty disinfectant drums from use in dairy operation.

21. Battery storage in maintenance shop area.

22. Produce (cattle food) storage south of maintenance shop.

23. Discarded automobiles near produce feed stock.

24. Empty fertilizer tank and empty metal drum on southern portion of the Property (feed stock silo and boxes in the rear).

25. Intermediate catch basin on southwestern portion of the Property.

26. Runoff/drainage channel adjacent to intermediate catch basin.

27. Coco's Nursery (tenant, no address) north of intermediate catch basin.

28. Construction debris pile adjacent to southwestern Property line (offsite).

29. View of dry catch basin on the southwestern corner of the Property.

30. Western Property line, viewing north (dry catch basin to the right).

31. Southern portion of the Property, viewing southwest.

32. Northern Property line, viewing west.

33. Vacant dairy facility and single-family home on northeastern portion of the Property, within Drake Family Farm tenant space.

34. Decommissioned water well equipment on northeastern Property line.

35. Water well equipment at northeastern Property corner.

36. Goat cheese production facility on northeastern portion of the Property (Drake Family Farms; 7235, 7255, 7271, 7275 & 7277 Schaefer Avenue).

37. Chiller equipment on facility exterior.

38. Exterior storage including dairy equipment, disinfectants, and an emergency generator (septic tank located below storage).

39. Empty milk tank and empty disinfectant drums on western milking barn exterior.

40. Water well equipment east of Drake Farm milking barn.

41. View of goat milking barn interior.

42. Cooling units for goat cheese on northern portion of the Property.

43. Disinfectant storage inside milking barn.

44. Drake Family Farms maintenance shop.

45. Fuel storage inside maintenance shop.

46. Septic tank location on northeastern Property portion (Drake Family Farms).

47. City water utility covers on northeastern Property line.

48. Catch basin on central eastern portion of the Property.

49. South adjoining vacant land.

50. South adjoining antenna equipment.

51. Equipment storage on southeast adjoining agricultural property.

52. Truck dealership to southwest adjacent across Euclid Avenue (Robert R. Ford, 14402 Euclid Avenue).

53. Dairy/cattle operation on east adjoining land.

54. East adjoining vacant land.

55. West adjacent trailer storage yard across Euclid Avenue.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

## **EXECUTIVE SUMMARY**

### DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

## **RECORD SOURCES**

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

#### **RESEARCH SUMMARY**

### SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in *bold italics* are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

### STANDARD ENVIRONMENTAL RECORDS

### Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/22/2021 has revealed that there is 1 RCRA-LQG site within approximately 0.25 miles of the target property.

Lower Elevation	Address	Direction / Distance	Map ID	Page
STATER BROS MARKETS EPA ID:: CAL000340385	6989 SCHAEFER AVE	W 0 - 1/8 (0.115 mi.)	L39	143

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/22/2021 has revealed that there are 2 RCRA-SQG sites within approximately 0.25 miles of the target property.

### State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/25/2021 has revealed that there are

2 ENVIROSTOR sites within approximately 1 mile of the target property.

### State and tribal landfill and/or solid waste disposal site lists

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the SWF/LF list, as provided by EDR, has revealed that there are 6 SWF/LF sites within approximately 0.5 miles of the target property.

### State and tribal leaking storage tank lists

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 11 LUST sites within approximately 0.5 miles of the target property.

## State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

A review of the UST list, as provided by EDR, has revealed that there are 6 UST sites within approximately 0.25 miles of the target property.

#### Local Lists of Registered Storage Tanks

SWEEPS UST: Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

A review of the SWEEPS UST list, as provided by EDR, and dated 06/01/1994 has revealed that there are 7 SWEEPS UST sites within approximately 0.25 miles of the target property.

### Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/22/2021 has revealed that there are 10 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

The released materials appear to be various paints and potentially some solvents. After knocking down the fire with approximately 1000 gallons of water, the fire run-off was contained in a dirt ditch area, where City Yards personnel are cleaning up the release. Caller confirms no nearby storm drains or public waterways were impacted. 	Agency Type:	Private
	SIC Code:	241
	SIC Code 2:	Not reported
	Primary Waste Type:	Designated/Influent or Solid Wastes that pose a significant threat to
		water quality because of their high concentrations (E.G., BOD,
		Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G.,
		inorganic salts and heavy metals) are included in this category.
	Primary Waste:	STORMS
	Waste Type2:	D
	Waste2:	Stormwater Runoff
	Primary Waste Type:	Designated/Influent or Solid Wastes that pose a significant threat to
	, ,,	water quality because of their high concentrations (E.G., BOD,
		Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G.,
		inorganic salts and heavy metals) are included in this category.
	Secondary Waste:	Solid Wastes
	Secondary Waste Type:	Designated/Influent or Solid Wastes that pose a significant threat to
		water quality because of their high concentrations (E.G., BOD,
		Hardness, TRF, Chloride). 'Manageable' hazardous wastes (E.G.,
		inorganic salts and heavy metals) are included in this category.
	Design Flow:	0
	Baseline Flow:	0
	Reclamation:	No reclamation requirements associated with this facility.
	POTW:	The facility is not a POTW.
	Treat To Water:	Moderate Threat to Water Quality. A violation could have a major
		adverse impact on receiving biota, can cause aesthetic impairment to a
		significant human population, or render unusable a potential domestic
		or municipal water supply. Awsthetic impairment would include nuisance
	<b>.</b>	from a waste treatment facility.
	Complexity:	Category C - Facilities having no waste treatment systems, such as
		cooling water dischargers or thosewho must comply through best
		management practices, facilities with passive waste treatment and
		disposal systems, such as septic systems with subsurface disposal, or
		dischargers having waste storage systems with land disposal such as
		dairy waste ponds.

Citation:	HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)
Violation Description	
•	inventory information for all reportable hazardous materials on site
	at or above reportable quantities.
Violation Notes:	Returned to compliance on 03/18/2020. OBSERVATION: At time of inspection, Nu-dyne 110 was indicated as a trade secret on hazardous materials inventory submitted via CERS on 3-2-2019. This was determined to be incorrect. CORRECTED ON SITE: Nu-dyne was corrected to not a trade secret and an updated business plan was submitted via CERS at time of inspection.
Violation Division:	San Bernardino County Fire Department
Violation Program:	
Violation Source:	CERS
Site ID:	79902
Site Name:	VALLEY EQUIPMENT COMPANY
Violation Date:	03-18-2020
Citation:	HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)
Violation Description	
Violation Notes:	quantity of a previously disclosed material. Any handling of a previously undisclosed hazardous materials at or above reportable quantities. A change of business address, business ownership, or business name. A substantial change in the handler's operations that requires modification to any portion of the business plan. Returned to compliance on 03/18/2020. OBSERVATION: At time of inspection, observed (5) 15 gallon drums of tetrabase 350 which is more than 100 percent increase in quantity than amount indicated on hazardous materials inventory submitted via CERS on 3-2-2019. CORRECTED ON SITE: The quantity for tetrabase 350 was updated on hazardous materials inventory and a new business plan was submitted

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

### STANDARD ENVIRONMENTAL RECORDS

#### Federal NPL site list

#### NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Date of Government Version: 04/27/2021 Date Data Arrived at EDR: 05/03/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 16 Source: EPA Telephone: N/A Last EDR Contact: 06/04/2021 Next Scheduled EDR Contact: 07/12/2021 Data Release Frequency: Quarterly

NPL Site Boundaries

Sources:

EPA's Environmental Photographic Interpretation Center (EPIC) Telephone: 202-564-7333

EPA Region 1 Telephone 617-918-1143

EPA Region 3 Telephone 215-814-5418

EPA Region 4 Telephone 404-562-8033

EPA Region 5 Telephone 312-886-6686

EPA Region 10 Telephone 206-553-8665 EPA Region 6 Telephone: 214-655-6659

EPA Region 7 Telephone: 913-551-7247

EPA Region 8 Telephone: 303-312-6774

EPA Region 9 Telephone: 415-947-4246

#### Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/27/2021 Date Data Arrived at EDR: 05/03/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 16 Source: EPA Telephone: N/A Last EDR Contact: 06/04/2021 Next Scheduled EDR Contact: 07/12/2021 Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991 Date Data Arrived at EDR: 02/02/1994 Date Made Active in Reports: 03/30/1994 Number of Days to Update: 56 Source: EPA Telephone: 202-564-4267 Last EDR Contact: 08/15/2011 Next Scheduled EDR Contact: 11/28/2011 Data Release Frequency: No Update Planned

### Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Date of Government Version: 04/27/2021 Date Data Arrived at EDR: 05/03/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 16 Source: EPA Telephone: N/A Last EDR Contact: 06/04/2021 Next Scheduled EDR Contact: 07/12/2021 Data Release Frequency: Quarterly

## Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 02/22/2021 Date Data Arrived at EDR: 03/30/2021 Date Made Active in Reports: 06/17/2021 Number of Days to Update: 79 Source: Environmental Protection Agency Telephone: 703-603-8704 Last EDR Contact: 03/30/2021 Next Scheduled EDR Contact: 07/12/2021 Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 04/27/2021 Date Data Arrived at EDR: 05/03/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 16 Source: EPA Telephone: 800-424-9346 Last EDR Contact: 06/04/2021 Next Scheduled EDR Contact: 07/26/2021 Data Release Frequency: Quarterly

#### Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Date of Government Version: 04/27/2021 Date Data Arrived at EDR: 05/03/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 16 Source: EPA Telephone: 800-424-9346 Last EDR Contact: 06/04/2021 Next Scheduled EDR Contact: 07/26/2021 Data Release Frequency: Quarterly

### Federal RCRA CORRACTS facilities list

CORRACTS: Corrective Action Report

CORRACTS identifies hazardous waste handlers with RCRA corrective action activity.

Date of Government Version: 03/22/2021	Source: EPA
Date Data Arrived at EDR: 03/23/2021	Telephone: 800-424-9346
Date Made Active in Reports: 05/19/2021	Last EDR Contact: 06/21/2021
Number of Days to Update: 57	Next Scheduled EDR Contact: 10/04/2021
	Data Release Frequency: Quarterly

### Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 03/22/2021 Date Data Arrived at EDR: 03/23/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 57 Source: Environmental Protection Agency Telephone: (415) 495-8895 Last EDR Contact: 06/21/2021 Next Scheduled EDR Contact: 10/04/2021 Data Release Frequency: Quarterly

#### Federal RCRA generators list

# RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/22/2021 Date Data Arrived at EDR: 03/23/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 57 Source: Environmental Protection Agency Telephone: (415) 495-8895 Last EDR Contact: 06/21/2021 Next Scheduled EDR Contact: 10/04/2021 Data Release Frequency: Quarterly

#### RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 03/22/2021 Date Data Arrived at EDR: 03/23/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 57 Source: Environmental Protection Agency Telephone: (415) 495-8895 Last EDR Contact: 06/21/2021 Next Scheduled EDR Contact: 10/04/2021 Data Release Frequency: Quarterly

RCRA-VSQG: RCRA - Very Small Quantity Generators (Formerly Conditionally Exempt Small Quantity Generators) RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Very small quantity generators (VSQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 03/22/2021 Date Data Arrived at EDR: 03/23/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 57 Source: Environmental Protection Agency Telephone: (415) 495-8895 Last EDR Contact: 06/21/2021 Next Scheduled EDR Contact: 10/04/2021 Data Release Frequency: Quarterly

#### Federal institutional controls / engineering controls registries

#### LUCIS: Land Use Control Information System

LUCIS contains records of land use control information pertaining to the former Navy Base Realignment and Closure properties.

Date of Government Version: 02/09/2021Source: Department of the NavyDate Data Arrived at EDR: 02/11/2021Telephone: 843-820-7326Date Made Active in Reports: 03/22/2021Last EDR Contact: 05/05/2021Number of Days to Update: 39Next Scheduled EDR Contact: 08/23/2021Data Release Frequency: Varies

# US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 02/22/2021	Source: Environmental Protection Agency
Date Data Arrived at EDR: 02/23/2021	Telephone: 703-603-0695
Date Made Active in Reports: 05/19/2021	Last EDR Contact: 05/21/2021
Number of Days to Update: 85	Next Scheduled EDR Contact: 09/06/2021
	Data Release Frequency: Varies

## US INST CONTROLS: Institutional Controls Sites List

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 02/22/2021 Date Data Arrived at EDR: 02/23/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 85 Source: Environmental Protection Agency Telephone: 703-603-0695 Last EDR Contact: 05/21/2021 Next Scheduled EDR Contact: 09/06/2021 Data Release Frequency: Varies

#### Federal ERNS list

ERNS: Emergency Response Notification System

Emergency Response Notification System. ERNS records and stores information on reported releases of oil and hazardous substances.

Date of Government Version: 03/22/2021 Date Data Arrived at EDR: 03/24/2021 Date Made Active in Reports: 06/17/2021 Number of Days to Update: 85 Source: National Response Center, United States Coast Guard Telephone: 202-267-2180 Last EDR Contact: 06/17/2021 Next Scheduled EDR Contact: 10/04/2021 Data Release Frequency: Quarterly

# State- and tribal - equivalent NPL

#### **RESPONSE:** State Response Sites

Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

Date of Government Version: 01/25/2021	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 01/26/2021	Telephone: 916-323-3400
Date Made Active in Reports: 04/13/2021	Last EDR Contact: 04/23/2021
Number of Days to Update: 77	Next Scheduled EDR Contact: 08/09/2021
	Data Release Frequency: Quarterly

#### State- and tribal - equivalent CERCLIS

#### ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 01/25/2021 Date Data Arrived at EDR: 01/26/2021 Date Made Active in Reports: 04/13/2021 Number of Days to Update: 77 Source: Department of Toxic Substances Control Telephone: 916-323-3400 Last EDR Contact: 04/23/2021 Next Scheduled EDR Contact: 08/09/2021 Data Release Frequency: Quarterly

#### State and tribal landfill and/or solid waste disposal site lists

#### SWF/LF (SWIS): Solid Waste Information System

Active, Closed and Inactive Landfills. SWF/LF records typically contain an inventory of solid waste disposal facilities or landfills. These may be active or i nactive facilities or open dumps that failed to meet RCRA Section 4004 criteria for solid waste landfills or disposal sites.

Date of Government Version: 02/08/2021 Date Data Arrived at EDR: 02/09/2021 Date Made Active in Reports: 05/03/2021 Number of Days to Update: 83 Source: Department of Resources Recycling and Recovery Telephone: 916-341-6320 Last EDR Contact: 05/11/2021 Next Scheduled EDR Contact: 08/23/2021 Data Release Frequency: Quarterly

#### INDIAN VCP R1: Voluntary Cleanup Priority Listing

A listing of voluntary cleanup priority sites located on Indian Land located in Region 1.

Date of Government Version: 07/27/2015	Source: EPA, Region 1
Date Data Arrived at EDR: 09/29/2015	Telephone: 617-918-1102
Date Made Active in Reports: 02/18/2016	Last EDR Contact: 06/15/2021
Number of Days to Update: 142	Next Scheduled EDR Contact: 10/04/2021
	Data Release Frequency: Varies

#### State and tribal Brownfields sites

BROWNFIELDS: Considered Brownfieds Sites Listing

A listing of sites the SWRCB considers to be Brownfields since these are sites have come to them through the MOA Process.

Date of Government Version: 03/22/2021 Date Data Arrived at EDR: 03/23/2021 Date Made Active in Reports: 06/10/2021 Number of Days to Update: 79 Source: State Water Resources Control Board Telephone: 916-323-7905 Last EDR Contact: 06/17/2021 Next Scheduled EDR Contact: 10/04/2021 Data Release Frequency: Quarterly

### ADDITIONAL ENVIRONMENTAL RECORDS

#### Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 03/15/2021 Date Data Arrived at EDR: 03/16/2021 Date Made Active in Reports: 06/10/2021 Number of Days to Update: 86 Source: Environmental Protection Agency Telephone: 202-566-2777 Last EDR Contact: 06/10/2021 Next Scheduled EDR Contact: 09/27/2021 Data Release Frequency: Semi-Annually

#### Local Lists of Landfill / Solid Waste Disposal Sites

#### WMUDS/SWAT: Waste Management Unit Database

Waste Management Unit Database System. WMUDS is used by the State Water Resources Control Board staff and the Regional Water Quality Control Boards for program tracking and inventory of waste management units. WMUDS is composed of the following databases: Facility Information, Scheduled Inspections Information, Waste Management Unit Information, SWAT Program Information, SWAT Report Summary Information, SWAT Report Summary Data, Chapter 15 (formerly Subchapter 15) Information, Chapter 15 Monitoring Parameters, TPCA Program Information, RCRA Program Information, Closure Information, and Interested Parties Information.

#### Local Lists of Hazardous waste / Contaminated Sites

US HIST CDL: National Clandestine Laboratory Register

A listing of clandestine drug lab locations that have been removed from the DEAs National Clandestine Laboratory Register.

Date of Government Version: 12/07/2020	Source: Drug Enforcement Administration
Date Data Arrived at EDR: 12/09/2020	Telephone: 202-307-1000
Date Made Active in Reports: 03/02/2021	Last EDR Contact: 05/22/2021
Number of Days to Update: 83	Next Scheduled EDR Contact: 09/06/2021
	Data Release Frequency: No Update Planned

# HIST CAL-SITES: Calsites Database

The Calsites database contains potential or confirmed hazardous substance release properties. In 1996, California EPA reevaluated and significantly reduced the number of sites in the Calsites database. No longer updated by the state agency. It has been replaced by ENVIROSTOR.

Date of Government Version: 08/08/2005 Date Data Arrived at EDR: 08/03/2006 Date Made Active in Reports: 08/24/2006 Number of Days to Update: 21 Source: Department of Toxic Substance Control Telephone: 916-323-3400 Last EDR Contact: 02/23/2009 Next Scheduled EDR Contact: 05/25/2009 Data Release Frequency: No Update Planned

### SCH: School Property Evaluation Program

This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category depending on the level of threat to public health and safety or the environment they pose.

Date of Government Version: 01/25/2021 Date Data Arrived at EDR: 01/26/2021 Date Made Active in Reports: 04/13/2021 Number of Days to Update: 77 Source: Department of Toxic Substances Control Telephone: 916-323-3400 Last EDR Contact: 04/23/2021 Next Scheduled EDR Contact: 08/09/2021 Data Release Frequency: Quarterly

#### CDL: Clandestine Drug Labs

A listing of drug lab locations. Listing of a location in this database does not indicate that any illegal drug lab materials were or were not present there, and does not constitute a determination that the location either requires or does not require additional cleanup work.

Date of Government Version: 12/31/2019 Date Data Arrived at EDR: 01/20/2021 Date Made Active in Reports: 04/08/2021 Number of Days to Update: 78 Source: Department of Toxic Substances Control Telephone: 916-255-6504 Last EDR Contact: 04/14/2021 Next Scheduled EDR Contact: 07/19/2021 Data Release Frequency: Varies

### TOXIC PITS: Toxic Pits Cleanup Act Sites

Toxic PITS Cleanup Act Sites. TOXIC PITS identifies sites suspected of containing hazardous substances where cleanup has not yet been completed.

Date of Government Version: 07/01/1995 Date Data Arrived at EDR: 08/30/1995 Date Made Active in Reports: 09/26/1995 Number of Days to Update: 27 Source: State Water Resources Control Board Telephone: 916-227-4364 Last EDR Contact: 01/26/2009 Next Scheduled EDR Contact: 04/27/2009 Data Release Frequency: No Update Planned

### CERS HAZ WASTE: CERS HAZ WASTE

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Hazardous Chemical Management, Hazardous Waste Onsite Treatment, Household Hazardous Waste Collection, Hazardous Waste Generator, and RCRA LQ HW Generator programs.

Date of Government Version: 01/20/2021 Date Data Arrived at EDR: 01/20/2021 Date Made Active in Reports: 04/08/2021 Number of Days to Update: 78 Source: CalEPA Telephone: 916-323-2514 Last EDR Contact: 04/20/2021 Next Scheduled EDR Contact: 08/02/2021 Data Release Frequency: Quarterly

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 12/07/2020	Source: Drug Enforcement Administration
Date Data Arrived at EDR: 12/09/2020	Telephone: 202-307-1000

Number of Days to Update: 83	Next Scheduled EDR Contact: 09/06/2021
	Data Release Frequency: Quarterly

PFAS: PFAS Contamination Site Location Listing

A listing of PFAS contaminated sites included in the GeoTracker database.

Date of Government Version: 02/24/2021	Source: State Water Resources Control Board
Date Data Arrived at EDR: 02/24/2021	Telephone: 866-480-1028
Date Made Active in Reports: 05/14/2021	Last EDR Contact: 06/04/2021
Number of Days to Update: 79	Next Scheduled EDR Contact: 09/20/2021
	Data Release Frequency: Varies

### Local Lists of Registered Storage Tanks

#### SWEEPS UST: SWEEPS UST Listing

Statewide Environmental Evaluation and Planning System. This underground storage tank listing was updated and maintained by a company contacted by the SWRCB in the early 1990's. The listing is no longer updated or maintained. The local agency is the contact for more information on a site on the SWEEPS list.

Date of Government Version: 06/01/1994	Source: State Water Resources Control Board
Date Data Arrived at EDR: 07/07/2005	Telephone: N/A
Date Made Active in Reports: 08/11/2005	Last EDR Contact: 06/03/2005
Number of Days to Update: 35	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

# HIST UST: Hazardous Substance Storage Container Database

The Hazardous Substance Storage Container Database is a historical listing of UST sites. Refer to local/county source for current data.

Date of Government Version: 10/15/1990 Date Data Arrived at EDR: 01/25/1991 Date Made Active in Reports: 02/12/1991 Number of Days to Update: 18 Source: State Water Resources Control Board Telephone: 916-341-5851 Last EDR Contact: 07/26/2001 Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

#### SAN FRANCISCO AST: Aboveground Storage Tank Site Listing Aboveground storage tank sites

Date of Government Version: 02/11/2021Source: San Francisco County Department of Public HealthDate Data Arrived at EDR: 02/11/2021Telephone: 415-252-3896Date Made Active in Reports: 05/05/2021Last EDR Contact: 04/27/2021Number of Days to Update: 83Next Scheduled EDR Contact: 08/16/2021Data Release Frequency: Varies

#### CA FID UST: Facility Inventory Database

The Facility Inventory Database (FID) contains a historical listing of active and inactive underground storage tank locations from the State Water Resource Control Board. Refer to local/county source for current data.

Date of Government Version: 10/31/1994	Source: California Environmental Protection Agency
Date Data Arrived at EDR: 09/05/1995	Telephone: 916-341-5851
Date Made Active in Reports: 09/29/1995	Last EDR Contact: 12/28/1998
Number of Days to Update: 24	Next Scheduled EDR Contact: N/A
	Data Release Frequency: No Update Planned

#### CERS TANKS: California Environmental Reporting System (CERS) Tanks

List of sites in the California Environmental Protection Agency (CalEPA) Regulated Site Portal which fall under the Aboveground Petroleum Storage and Underground Storage Tank regulatory programs.

Date of Government Version: 01/20/2021	Source: California Environmental Protection Agency
Date Data Arrived at EDR: 01/20/2021	Telephone: 916-323-2514
Date Made Active in Reports: 04/08/2021	Last EDR Contact: 04/20/2021
Number of Days to Update: 78	Next Scheduled EDR Contact: 08/02/2021
	Data Release Frequency: Quarterly

### Local Land Records

LIENS: Environmental Liens Listing

A listing of property locations with environmental liens for California where DTSC is a lien holder.

Date of Government Version: 03/01/2021	Source: Department of Toxic Substances Control
Date Data Arrived at EDR: 03/03/2021	Telephone: 916-323-3400
Date Made Active in Reports: 05/20/2021	Last EDR Contact: 05/25/2021
Number of Days to Update: 78	Next Scheduled EDR Contact: 09/13/2021
	Data Release Frequency: Varies

### LIENS 2: CERCLA Lien Information

A Federal CERCLA ('Superfund') lien can exist by operation of law at any site or property at which EPA has spent Superfund monies. These monies are spent to investigate and address releases and threatened releases of contamination. CERCLIS provides information as to the identity of these sites and properties.

Date of Government Version: 04/27/2021
Date Data Arrived at EDR: 05/03/2021
Date Made Active in Reports: 05/19/2021
Number of Days to Update: 16

### DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

Date of Government Version: 03/02/2021 Date Data Arrived at EDR: 03/03/2021 Date Made Active in Reports: 05/19/2021 Number of Days to Update: 77 Source: DTSC and SWRCB Telephone: 916-323-3400 Last EDR Contact: 05/28/2021 Next Scheduled EDR Contact: 09/13/2021 Data Release Frequency: Semi-Annually

#### **Records of Emergency Release Reports**

HMIRS: Hazardous Materials Information Reportin Hazardous Materials Incident Report System	ng System n. HMIRS contains hazardous material spill incidents reported to DOT.
Date of Government Version: 03/22/2021 Date Data Arrived at EDR: 03/24/2021 Date Made Active in Reports: 06/17/2021 Number of Days to Update: 85	Source: U.S. Department of Transportation Telephone: 202-366-4555 Last EDR Contact: 06/17/2021 Next Scheduled EDR Contact: 10/04/2021 Data Release Frequency: Quarterly

#### Other Ascertainable Records

RCRA NonGen / NLR: RCRA - Non Generators / No Longer Regulated

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

Data Release Frequency: No Update Planned

# SCRD DRYCLEANERS: State Coalition for Remediation of Drycleaners Listing

The State Coalition for Remediation of Drycleaners was established in 1998, with support from the U.S. EPA Office of Superfund Remediation and Technology Innovation. It is comprised of representatives of states with established drycleaner remediation programs. Currently the member states are Alabama, Connecticut, Florida, Illinois, Kansas, Minnesota, Missouri, North Carolina, Oregon, South Carolina, Tennessee, Texas, and Wisconsin.

Date of Government Version: 01/01/2017 Date Data Arrived at EDR: 02/03/2017 Date Made Active in Reports: 04/07/2017 Number of Days to Update: 63 Source: Environmental Protection Agency Telephone: 615-532-8599 Last EDR Contact: 05/18/2021 Next Scheduled EDR Contact: 08/23/2021 Data Release Frequency: Varies

### US FIN ASSUR: Financial Assurance Information

All owners and operators of facilities that treat, store, or dispose of hazardous waste are required to provide proof that they will have sufficient funds to pay for the clean up, closure, and post-closure care of their facilities.

Date of Government Version: 03/22/2021 Date Data Arrived at EDR: 03/23/2021 Date Made Active in Reports: 06/17/2021 Number of Days to Update: 86 Source: Environmental Protection Agency Telephone: 202-566-1917 Last EDR Contact: 06/21/2021 Next Scheduled EDR Contact: 10/04/2021 Data Release Frequency: Quarterly

#### EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

Date of Government Version: 08/30/2013	Source: Environmental Protection Agency
Date Data Arrived at EDR: 03/21/2014	Telephone: 617-520-3000
Date Made Active in Reports: 06/17/2014	Last EDR Contact: 04/30/2021
Number of Days to Update: 88	Next Scheduled EDR Contact: 08/16/2021
	Data Release Frequency: Quarterly

### 2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

Date of Government Version: 09/30/2017 Date Data Arrived at EDR: 05/08/2018 Date Made Active in Reports: 07/20/2018 Number of Days to Update: 73

Source: Environmental Protection Agency Telephone: 703-308-4044 Last EDR Contact: 05/07/2021 Next Scheduled EDR Contact: 08/16/2021 Data Release Frequency: Varies

#### TSCA: Toxic Substances Control Act

Toxic Substances Control Act. TSCA identifies manufacturers and importers of chemical substances included on the TSCA Chemical Substance Inventory list. It includes data on the production volume of these substances by plant site.

Date of Government Version: 12/31/2016 Date Data Arrived at EDR: 06/17/2020 Date Made Active in Reports: 09/10/2020 Number of Days to Update: 85

Source: EPA Telephone: 202-260-5521 Last EDR Contact: 06/17/2021 Next Scheduled EDR Contact: 09/27/2021 Data Release Frequency: Every 4 Years

#### TRIS: Toxic Chemical Release Inventory System

Toxic Release Inventory System. TRIS identifies facilities which release toxic chemicals to the air, water and land in reportable quantities under SARA Title III Section 313.

Date of Government Version: 12/31/2018	Source: EPA
Date Data Arrived at EDR: 08/14/2020	Telephone: 202-566-0250

#### RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

Date of Government Version: 01/22/2021 Date Data Arrived at EDR: 02/18/2021 Date Made Active in Reports: 05/11/2021 Number of Days to Update: 82

# RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995 Date Data Arrived at EDR: 07/03/1995 Date Made Active in Reports: 08/07/1995 Number of Days to Update: 35

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006 Date Data Arrived at EDR: 03/01/2007 Date Made Active in Reports: 04/10/2007 Number of Days to Update: 40 Source: Environmental Protection Agency Telephone: 202-564-2501 Last EDR Contact: 12/17/2007 Next Scheduled EDR Contact: 03/17/2008 Data Release Frequency: No Update Planned

HIST FTTS INSP: FIFRA/TSCA Tracking System Inspection & Enforcement Case Listing

A complete inspection and enforcement case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

CONSENT: Superfund (CERCLA) Consent Decrees

Major legal settlements that establish responsibility and standards for cleanup at NPL (Superfund) sites. Released periodically by United States District Courts after settlement by parties to litigation matters.

Date of Government Version: 12/31/2020 Date Data Arrived at EDR: 01/13/2021 Date Made Active in Reports: 03/22/2021 Number of Days to Update: 68 Source: Department of Justice, Consent Decree Library Telephone: Varies Last EDR Contact: 04/05/2021 Next Scheduled EDR Contact: 07/19/2021 Data Release Frequency: Varies

BRS: Biennial Reporting System

The Biennial Reporting System is a national system administered by the EPA that collects data on the generation and management of hazardous waste. BRS captures detailed data from two groups: Large Quantity Generators (LQG) and Treatment, Storage, and Disposal Facilities.

Date of Government Version: 12/31/2017 Date Data Arrived at EDR: 06/22/2020 Date Made Active in Reports: 11/20/2020 Number of Days to Update: 151 Source: EPA/NTIS Telephone: 800-424-9346 Last EDR Contact: 06/21/2021 Next Scheduled EDR Contact: 10/04/2021 Data Release Frequency: Biennially

### INDIAN RESERV: Indian Reservations

This map layer portrays Indian administered lands of the United States that have any area equal to or greater than 640 acres.

Date of Government Version: 12/31/2014 Date Data Arrived at EDR: 07/14/2015 Date Made Active in Reports: 01/10/2017 Number of Days to Update: 546 Source: USGS Telephone: 202-208-3710 Last EDR Contact: 04/06/2021 Next Scheduled EDR Contact: 07/19/2021 Data Release Frequency: Semi-Annually

## FUSRAP: Formerly Utilized Sites Remedial Action Program

DOE established the Formerly Utilized Sites Remedial Action Program (FUSRAP) in 1974 to remediate sites where radioactive contamination remained from Manhattan Project and early U.S. Atomic Energy Commission (AEC) operations.

Date of Government Version: 08/08/2017 Date Data Arrived at EDR: 09/11/2018 Date Made Active in Reports: 09/14/2018 Number of Days to Update: 3 Source: Department of Energy Telephone: 202-586-3559 Last EDR Contact: 04/28/2021 Next Scheduled EDR Contact: 08/16/2021 Data Release Frequency: Varies

#### UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

#### LEAD SMELTER 2: Lead Smelter Sites

A list of several hundred sites in the U.S. where secondary lead smelting was done from 1931and 1964. These sites may pose a threat to public health through ingestion or inhalation of contaminated soil or dust

Date of Government Version: 04/05/2001 Date Data Arrived at EDR: 10/27/2010 Date Made Active in Reports: 12/02/2010 Number of Days to Update: 36 Source: American Journal of Public Health Telephone: 703-305-6451 Last EDR Contact: 12/02/2009 Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

Active Mines and Mineral Processing Plant operations for commodities monitored by the Minerals Information Team of the USGS.

Date of Government Version: 04/14/2011 Date Data Arrived at EDR: 06/08/2011 Date Made Active in Reports: 09/13/2011 Number of Days to Update: 97 Source: USGS Telephone: 703-648-7709 Last EDR Contact: 05/27/2021 Next Scheduled EDR Contact: 09/06/2021 Data Release Frequency: Varies

#### ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

#### WASTEWATER PITS: Oil Wastewater Pits Listing

Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

### EDR HIGH RISK HISTORICAL RECORDS

#### EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: No Update Planned

### EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

Date of Government Version: N/A Date Data Arrived at EDR: N/A Date Made Active in Reports: N/A Number of Days to Update: N/A Source: EDR, Inc. Telephone: N/A Last EDR Contact: N/A Next Scheduled EDR Contact: N/A Data Release Frequency: Varies

#### EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

### **OTHER DATABASE(S)**

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

#### AHA Hospitals:

Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

## **GROUNDWATER FLOW DIRECTION INFORMATION**

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

## **TOPOGRAPHIC INFORMATION**

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

### TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General South

### SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

### FEMA FLOOD ZONE

Flood Plain Panel at Target Property	FEMA Source Type
06037C1750F	FEMA FIRM Flood data
Additional Panels in search area:	FEMA Source Type
06071C8620H 06071C9335H	FEMA FIRM Flood data FEMA FIRM Flood data
NATIONAL WETLAND INVENTORY	NWI Electronic
NWI Quad at Target Property ONTARIO	<u>Data Coverage</u> YES - refer to the Overview Map and Detail Map

### HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:		
Search Radius:	1.25 miles	
Status:	Not found	

### **AQUIFLOW®**

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

MAP ID Not Reported LOCATION FROM TP GENERAL DIRECTION GROUNDWATER FLOW

## **GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

### **GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY**

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

## **ROCK STRATIGRAPHIC UNIT**

## DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1	
Soil Component Name:	HILMAR
Soil Surface Texture:	loamy fine sand
Hydrologic Group:	Class C - Slow infiltration rates. Soils with layers impeding downward movement of water, or soils with moderately fine or fine textures.
Soil Drainage Class:	Somewhat poorly drained
Hydric Status: Not hydric	
Corrosion Potential - Uncoated Steel:	High
Depth to Bedrock Min:	> 0 inches
Depth to Watertable Min:	> 0 inches

	Soil Layer Information						
	Boundary		Classification		Saturated hydraulic		
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	conductivity micro m/sec	
1	0 inches	22 inches	loamy fine sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay. FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 1.4 Min: 0.42	Max: 8.4 Min: 7.9
2	22 inches	59 inches	stratified loamy sand to loam	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay. FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 1.4 Min: 0.42	Max: 8.4 Min: 7.9

## Soil Map ID: 2

Soil Component Name:	TUJUNGA
Soil Surface Texture:	gravelly loamy sand
Hydrologic Group:	Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.
Soil Drainage Class:	Somewhat excessively drained
Hydric Status: Not hydric	
Corrosion Potential - Uncoated Steel:	Moderate
Depth to Bedrock Min:	> 0 inches
Depth to Watertable Min:	> 0 inches

Soil Layer Information							
	Βοι	indary		Classification		Saturated hydraulic	
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil	conductivity micro m/sec	
1	0 inches	18 inches	gravelly loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1
2	18 inches	59 inches	loamy sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1

## LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

#### **TOPOGRAPHIC INFORMATION**

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map Source: U.S. Geological Survey

#### HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA Telephone: 877-336-2627 Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

#### HYDROGEOLOGIC INFORMATION

AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

#### **GEOLOGIC INFORMATION**

#### Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

### STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS) The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS) Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

### LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

## **OTHER STATE DATABASE INFORMATION**

Groundwater Ambient Monitoring & Assessment Program

State Water Resources Control Board

Telephone: 916-341-5577

The GAMA Program is Californias comprehensive groundwater quality monitoring program. GAMA collects data by testing the untreated, raw water in different types of wells for naturally-occurring and man-made chemicals. The GAMA data includes Domestic, Monitoring and Municipal well types from the following sources, Department of Water Resources, Department of Heath Services, EDF, Agricultural Lands, Lawrence Livermore National Laboratory, Department of Pesticide Regulation, United States Geological Survey, Groundwater Ambient Monitoring and Assessment Program and Local Groundwater Projects.

Water Well Database Source: Department of Water Resources Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

California Oil and Gas Well Locations

Source: Dept of Conservation, Geologic Energy Management Division Telephone: 916-323-1779 Oil and Gas well locations in the state.

California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

# MOINE BROS.

CONTRACTOR'S LIC. NO. 849229

# UNDERGROUND TANK CLOSURE REPORT 7255 Schaefer Avenue, Ontario, CA 91761 S.B. CO. FIRE DEPT.

September 7, 2011

This report describes the removal of an underground storage tank from the property at 7255 Schaefer Avenue, Ontario, California. The tank was 550 gallons in volume, was of single-wall steel construction, and was formerly used to store diesel fuel. The dispenser island was located directly over the tank, and the tank-related piping did not extend beyond the tank excavation.

The soils covering the tank were excavated and stockpiled at the site on August 31, 2011. In compliance with SCAQMD Rule 1166, SCAQMD was notified prior to beginning the excavation, and volatile organic compound (VOC) concentrations in the air were monitored as the excavation progressed.

The tank-related piping was flushed with water, disconnected, and removed, and the tank was triplerinsed/pressure-washed in-place and removed on September 1, 2011. Residual liquids and rinse water were collected in a vacuum truck and were manifested, transported, and disposed of (recycled) off-site at a licensed TSDF. Tank atmospheric readings were taken and dry ice was placed into the tank. Upon approval of on-site County and City Fire Department on-site representatives, the tank was removed from the excavation. The tank appeared to be in very good condition with no apparent holes or cracks. The tank was loaded into a dump truck and transported off-site for destruction and recycling.

After removal of the tank from the excavation, at the direction of Angela Samayoa of San Bernardino County Fire Department, a soil sample was collected from a depth of approximately three feet beneath the tank invert, approximately 12 feet beneath the ground surface. The sample was immediately stored on ice, and was delivered to a State-certified environmental laboratory on the same day. The sample was analyzed for TPH-carbon chain (E.P.A. Method 8015M), for VOC, BETX, MTBE, and fuel oxygenates (E.P.A. 8260B), and for lead (SW846 6010B).

Soil sample analytical results are displayed in the following table:

Compounds / test method:	Concentration:
V.O.C., B.E.T.X., M.T.B.E., fuel oxygenates / E.P.A. 8260B	Not detected
T.P.H. (C5-C24) / E.P.A. 8015M	Not detected
T.P.H. (C25-C40) / E.P.A. 8015M	57 mg/Kg .
Lead / SW846 6010B	12 mg/Kg

Copies of the permits, inspection record, air monitoring log, tank rinse manifest, tank certification, dry ice receipt, tank destruction certificate, site map, and soil sample analytical report are attached herewith.

Please contact me if you have questions or require anything further.

Sincerely,

Virgil Cicoria Project Manager

RE: Abandoned Underground Storage Tank(s) ("USTs") Summerville Dairy, 7255 Schaefer Avenue Chino, CA 91710 FA0000657 APN: 1053-081-03

Dear Mr. Crutsinger:

The undersigned law firm represents Artevel of California, LLC, the owner of the above-identified real property ("Owner"). I am responding to your letter dated May 17, 2011, which I enclose a copy for your reference.

In response to your letter, the Owner has been consulting with various general contractors and engineers regarding removing the subject USTs. The Owner expects to remove the USTs within 90 days of this letter, which falls on September 17, 2011.

If you have any questions or do not find the Owner's proposal acceptable, then please advise me in writing.

Sincerely,

GEORGE R. PHILLIPS

#### ACCEPTANCE OF CONDITIONAL RESOLUTION AND WAIVER OF RIGHT TO HEARING

Art Venegas Dairy Order No. R8-2012-0033

By signing and returning this Acceptance of Conditional Resolution and Waiver of Right to Hearing (Acceptance and Order), Art Venegas Dairy hereby accepts the resolution of the mandatory minimum penalty assessments for the violations cited in the Expedited Payment Option Notice, violations of NPDES Permit No. CAG018001, for which mandatory minimum penalties shall be assessed by the Regional Board. By signing the Acceptance and Order, Art Venegas Dairy also waives its right to a hearing before the Regional Board.

Art Venegas Dairy agrees that the Expedited Payment Option Notice and Attachment 1 together will serve as a Complaint pursuant to Article 2.5 of the California Water Code (CWC) and that no separate Complaint is required by the Regional Board to assert jurisdiction over the alleged violations. Art Venegas Dairy agrees to pay the mandatory minimum penalty of \$9,000 as shown in the Expedited Payment Option Notice dated April 19, 2012, which shall be deemed payment in full for the violations listed in the Notice, pursuant to CWC Section 13385.

Art Venegas Dairy understands that pursuant to 40 CFR Section 123.27(d)(2)(iii), the Regional Board is required to provide public notice for at least 30 days and seek comments of any settlement agreement with the Art Venegas Dairy related to the NPDES permit violations, prior to the Executive Officer executing any settlement agreements such as this Acceptance and Order. Art Venegas Dairy understands that if significant comments are received, this Acceptance and Order may not be executed and the offer for expedited payment and settlement may be withdrawn and the Regional Board may choose to take formal enforcement action.

#### CERTIFIED MAIL RETURN RECEIPT REQUESTED

#### MANDATORY PENALTY COMPLAINT ORDER NO. R8-2012-0033

Mr. Venegas:

On June 5, 2012, you signed an Acceptance of Conditional Resolution and Waiver of Right to Hearing regarding mandatory minimum penalty assessment for violations of reporting requirements for your Concentrated Animal Feeding Operation. The settlement has been posted on our website for 30 days to provide the public an opportunity to comment on the proposed penalty assessment. We did not receive any public comment.

I have signed the acceptance on behalf of the Santa Ana Regional Water Quality Control Board, and it now serves as Mandatory Penalty Complaint Order No. R8-2012-0033. Please retain the enclosed copy for your records. Payment of the penalty assessments is due within 30 days. Please submit a check for \$9,000, made payable to the" State Water Pollution Cleanup and Abatement Account," by August 15, 2012.

If you have any questions about this letter, please contact Stephen D. Mayville of my staff at (951) 782-4992 or (<u>smayville@waterboards.ca.gov</u>).

# DISCHARGE AUTHORIZATION FOR ART VENEGAS DAIRY, 13835 EUCLID AVENUE, ONTARIO

Dear Mr. Venegas:

Thank you for submitting a Notice of Intent to comply with the requirements of the Regional Board's General Dairy Permit (Order No. R8-2018-0001, NPDES No. CAG018001). You submitted a Notice of Intent for Art Venegas Dairy at 13835 Euclid Avenue in the City of Ontario.

In your Notice of Intent, you indicate that you intend to implement an approved Engineered Waste Management Plan (EWMP) for this facility. Our records indicate that an EWMP, dated December 2003, was approved by the Executive Officer on September 28, 2005. You also indicate that a Nutrient Management Plan was approved. Our records do not indicate that a Nutrient Management Plan has been approved for this facility.

You are hereby authorized to discharge waste from the above referenced facility in accordance with the approved EWMP and the terms and conditions specified in the General Dairy Permit. The General Dairy Permit does not authorize you to discharge waste to land unless a Nutrient Management Plan has been approved by the Executive Officer. If there is any conflict between the General Dairy Permit and the EWMP, the terms and conditions of the General Dairy Permit prevail. The General Dairy Permit includes provisions that, in summary,

- 1) Prohibit the land application of manure anywhere in the Santa Ana Region for disposal purposes.
- 2) Require all facility operators to implement an Engineered Waste Management Plan.
- 3) Require all manure scraped from corrals be removed from the facility within 180 days.
- 4) Require operators that transfer manure to a third party to provide that party with a chemical analysis of the manure.

WILLIAM RUH, CHAIR | HOPE SMYTHE, EXECUTIVE OFFICER

- 5) Require you to inspect your facilities on at least a weekly basis and record the findings in a log form.
- 6) Require the tracking of all manure removed from the facility.
- 7) Require a level marker within each pond or impoundment (indicators on each level marker must be placed by a licensed surveyor or a qualified person).
- 8) Require you to submit the following reports by January 15 of each year:
  - Annual Summary Report (the form will be transmitted to you near year-end)
  - Annual Summary Report of Storm Water Management Structure Inspections (i.e. a summary from the weekly inspection logs mentioned above. The form will be transmitted to you near year-end), and
  - Manure Tracking Manifest Form.

The General Dairy Permit and forms that you will need to comply with the requirements summarized above are available at the following web site:

#### https://www.waterboards.ca.gov/santaana/water\_issues/programs/dairies/

If you wish to terminate coverage under this general permit, please submit the Notice of Termination form as soon as possible so that we can rescind this authorization and avoid billing you the annual fee.

Should you have any questions, please contact Jawed Shami at (951) 782-3288 (Jawed.Shami@waterboards.ca.gov) or Kyle Wright at (951) 320-6370 (Kyle.Wright@waterboards.ca.gov).

Sincerely,

Al Smithe

- **N** Was this a Quality Assurance-Based inspection?
- N Were bioassay samples taken? (N=no) If YES then, S= Static or F= Flow through.
- N Were water quality samples collected?

#### **INSPECTION SUMMARY**

The overall facility rating, on a 1 (unreliable) to 5 (reliable) scale, was determined to be 3 = Satisfactory.

Corral manure ~~ 3-5 inches. Several large manure stockpiles in east area. Pond/pasture area maintenance is adequate. South pond had been deepened and maintained. Housekeeping is adequate.

#### **INSPECTION OBSERVATIONS**

#### ANIMALS ONSITE DURING INSPECTION;

Milk Cows: 70 Dry Cows: 15 Heifers: 133 Calves: Other:

Several dirt piles in some corrals. Corrals contained about 3-5 inches manure. Housekeeping in corrals was marginal. Pasture field was well maintained. Berm integrity appeared adequate. No mortalities observed. Rodent activity was minimal. Other housekeeping and BMP maintenance was adequate. Northern field area is used for cropland. Pumpkins are growing at this time. Farmer is Chad Cleveland. NMP not required. The manure piles observed in the eastern area are in process of composting. Southwest pond/pasture area has minimal seasonal vegetation. Spillway has been maintained. No evidence of discharges from facility. Northeastern corral area near Drake Goat Farm has 200 – 300 heifers that are not part of Art Venegas Dairy. Drainage from these corrals flows into a southeast pond. Drainage from Art Venegas Dairy flows into the southwest pond/pasture area.

ADDITIONAL COMMENTS, SPECIAL INSTRUCTIONS, FUTURE INSPECTION FOLLOW UP ETC. Discussion. Follow-up required for CAFO operation in northeast corrals to determine operator.

10-14-16 View north at north cropland area. Chad Cleveland is farming crops.

10-14-16 View south at southwest corral area. Corrals have stockpiles of a mixture of dirt and green waste.

November 25, 2019

Art Venegas Art Venegas Dairy 13835 Euclid Avenue Ontario, CA 91762

#### ANNUAL REPORT OF ANIMAL WASTE DISCHARGE FOR YEAR 2019

Dear Mr. Venegas:

Your facility located at 13835 Euclid Avenue in Ontario is currently regulated under the General Waste Discharge Requirements for Concentrated Animal Feeding Operations (Dairies & Related Facilities) within the Santa Ana Region, Order No. R8-2018-0001. This Order requires you to submit an annual report, including manure manifest forms and an annual summary of weekly inspections, to this office by **January 15** of each year. The required forms are enclosed with this letter. Additional information and instructions for completing the forms are below:

 <u>Annual Report of Animal Waste Discharge Form (Form 3).</u> This form includes preprinted information regarding your facility. If you find any of the information to be incorrect or incomplete, please make the necessary changes directly on the form.

The front side of the form has an area where you are to record the amount of manure that was spread on cropland at the facility. Cropland does not include pasture areas or land areas not associated with the facility. Please include the amount of manure that was spread on cropland at the facility only.

The back of the form has an area where you are to record that you have complied with the Order's requirement to provide the recipient of manure, litter or process wastewater with the most current nutrient analysis. Also, please record if you have a Nutrient Management Plan and if it has been certified.

2) <u>Manure Tracking Manifest Form (Form 4).</u> This form includes pre-printed information regarding your facility. You are required to record the disposition of all manure hauled from your facility. A separate Manure Tracking Manifest Form must be used for each hauling event. Each hauling event may include several loads to the same destination, and therefore, may last multiple days. However, a separate form must be completed for each different destination. You can make additional copies of this form as needed. Completed forms for all hauling events that occurred during 2019 must accompany your Annual Report of Animal Waste Discharge.

WILLIAM RUH, CHAIR | HOPE SMYTHE, EXECUTIVE OFFICER

3737 Main St., Suite 500, Riverside, CA 92501 | www.waterboards.ca.gov/santaana

3) <u>Annual Summary of Weekly Inspections Form (Form 2).</u> This form includes preprinted information regarding your facility. This form is to be used to summarize the information that you have recorded on your Weekly Inspection Log. This form must also accompany your Annual Report of Animal Waste Discharge.

Please note that you are submitting all the above forms under the penalty of perjury.

We are also enclosing Weekly Inspections Log Sheets (Form 1) to assist you in keeping your 2019 records.

Please note that failure to submit the annual report, or a late submittal, may result in a mandatory enforcement action. Failure to submit the forms by January 15, 2020 is a violation of Order No. R8-2018-0001 and, in accordance with California Water Code Sections 13385(h) and 13385.1(a)(1), could subject you to a mandatory minimum penalty of \$3,000 for each 30-day period your report is not submitted. Therefore, we encourage you to avoid this by submitting your report no later than January 15, 2020.

Please send the completed forms electronically at <u>RB8-SantaAna@waterboards.ca.gov</u> or mail the completed forms to:

#### California Regional Water Quality Control Board 3737 Main Street, Suite 500 Riverside, CA 92501-3339

Thank you for your cooperation. If you need assistance in completing the enclosed forms or have auestions. any please contact Jawed Shami (951) at 782-3288 (Jawed.shami@waterboards.ca.gov) or Kyle Wright at (951) 320-6370 (Kyle.wright@waterboards.ca.gov).

Sincerely,

Adam Fischer, Chief Inland Storm Water Unit

### SANTA ANA REGIONAL WATER QUALITY CONTROL BOARD <sup>2</sup>

#### **INSPECTION SUMMARY:**

Regional Board staff conducted a compliance inspection on July 22, 2019. Facility is located at 13835 Euclid Avenue in the city of Ontario. During the inspection, Regional Board staff noted that the corrals showed signs of excess manure build up. Specifically, multiple stockpiles of manure noted in various areas such as a corral and outside in a what appeared to be a storage area. Regional Board staff noted smaller stockpiles to the east of the corrals. Upon closer inspection, Regional Board staff note the remains of several cows mixed in with the material.

Staff then was able to gain access to the pond area from a distance. Excess weed growth was found near the pond and limited staff from obtaining closer pictures. At distance, staff noted a pinkish tint to the containment pond. Similar conditions noted in other facilities in the area.

Regional Board staff was unable to contact dairy facility staff at time of the inspection. All violations will be addressed with the facility owner.

## NOTICE OF VIOLATION - DELINQUENT ANNUAL REPORT OF ANIMAL WASTE DISCHARGE FOR YEAR 2011

Mr. Venegas:

On November 22, 2011, you were sent a letter reminding you of the requirement contained in the General Dairy Permit (Order No. R8-2007-0001 under which you are permitted) to submit an annual report, including manure manifest forms and an annual summary of weekly inspections for your facility. In that letter you were also informed that failure to submit these documents is a violation of Order No. R8-2007-0001, and in accordance with California Water Code Section 13385, you would be subject to a mandatory minimum penalty of \$3,000 for each 30-day period your report is not submitted. The first 30 day period ended on February 15, 2012, and the second 30-day period ended on March 16, 2012.

On March 13, 2012, Regional Board staff contacted you regarding your delinquent Annual Report and informed you that you are subject to penalties for not submitting your Annual Report. At your request, staff sent you an electronic copy of the Annual Report forms. As of this date we have not received your annual report form, manure manifest forms, or annual summary of inspections. Since your Annual Report is now delinquent for two 30-day periods, you are currently subject to the mandatory minimum penalty of \$6,000. Please be advised that you will be assessed a **\$3,000 penalty for each additional 30 day period** that your annual report is delinquent. Therefore, we encourage you to immediately complete and mail (or fax to 951-781-6288) the Annual Report form(s) to:

#### WASTE DISCHARGE REQUIREMENTS, ORDER NO. R8-2007-0001, NPDES NO. CAG018001, FOR ART VENEGAS DAIRY, LOCATED AT 13835 EUCLID AVENUE, ONTARIO

Mr. Venegas:

On September 7, 2007, the Regional Board adopted General Waste Discharge Requirements for Concentrated Animal Feeding Operations (Dairies and Related Facilities) Within the Santa Ana Region, NPDES No. CAG018001 (Order No. R8-2007-0001). Section II, Part B.3, of Order No. R8-2007-0001, requires the submittal of a Notice of Intent and filing fee for the discharge of wastes. If the proposed discharge meets the requirements of Order R8-2007-0001, the Executive Officer will provide the discharger with a written authorization to discharge wastes in accordance with the terms and conditions specified in Order No. R8-2007-0001.

You have submitted a Notice of Intent and filing fee for the discharge of wastes from the above facility. With receipt of your Notice of Intent and filing fee, you have complied with Section II, Part B.3, of Order No. R8-2007-0001. Therefore you are hereby authorized to discharge waste from your facility in accordance with the terms and conditions specified in Order No. R8-2007-0001.

Order No. R8-2007-0001 includes provisions, in part, that:

- 1) Prohibit the land application of manure anywhere in the Santa Ana Region for disposal purposes.
- 2) Prohibit the land application of manure as fertilizer in certain areas of the Region, and limit the land application of manure as fertilizer in the remainder of the Region.
- 3) Require all facility operators to develop and implement an Engineered Waste Management Plan (EWMP).
- 4) Require all manure scraped from corrals be removed from the facility within 180 days.
- 5) Require large CAFOs (greater than 700 cows) that transfer manure to a third party to provide that party with a chemical analysis of the manure for nitrogen compounds.

California Environmental Protection Agency

Art Venegas

- 6) Require you to inspect your facilities on at least a weekly basis, and record the findings in the enclosed log form.
- 7) Require the tracking of all manure removed from the facility. Please use the enclosed form for all manure which is hauled from your facility.
- 8) Require you to submit the following reports by January 15 of each year:
  - Annual Summary Report (the form will be transmitted to you near year end)
  - Annual Summary Report of Storm Water Management Structure Inspections (i.e. a summary from the weekly inspection logs mentioned above. The form will be transmitted to you near year end)
  - New Manure Tracking Manifest (form enclosed)

Our records indicate that an EWMP for this facility was accepted on September 28, 2005. After an accepted EWMP is implemented, a certification letter indicating that the EWMP was implemented must be submitted to our office. As of this date, we have not received a certification letter that the accepted EWMP was implemented.

If you intend to develop a new EWMP or modify the accepted EWMP please submit the name of the engineer or qualified individual who will develop the EWMP and a time schedule to develop or modify the EWMP. If you intend to use the current accepted EWMP, a certification letter from the engineer who developed the EWMP, must be submitted to our office.

Please note that failure to fully develop and implement an EWMP and submit an implementation certification for this facility is a violation of Order No. R8-2007-0001, which could subject you to an administrative civil liability penalty of \$10,000 per day for each day the violation occurs. <u>To avoid a possible enforcement action by the Regional</u> Board, please submit the above requested information by June 1, 2010.

As a reminder, a copy of the Order No. R8-2007-0001 can be downloaded from the Regional Board's website at: <u>http://www.waterboards.ca.gov/santaana/pdf/07-01.pdf</u>. If you have any questions, I would encourage you to call Ed Kashak at (951) 782-3292 or Jawed Shami at (951) 782-3288.

Sincerely,

Ktv. Bltl

Gerard J. Thibeault Executive Officer

Instructions: Use this form to keep track of weekly visual inspections of your process wastewater and storm water containment structures. Use this form to document the findings of daily storm event inspections. List the items that need to be inspected below (refer to your Engineered Waste Management Plan).

Keep track of your inspections in the following table by filling out one row each week when you inspect your process wastewater and storm water containment structures. Provide the following information: date of inspection, initials of the person performing the inspection, check "OK" box if no problems were found, use the "Notes" column to describe problems, if you find any, and how they were fixed, record the estimate of the wastewater containment pond(s) freeboard, fill in the "Date Corrected" column with the date when you corrected the problem.

<b>Facility Informatio</b>	n (Please make corrections directly on this form)	
Operator's Name:	Art Venegas	
Facility Name:	Art Venegas Dairy	
Facility Address:	13835 Euclid Avenue, Ontario	

Instructions: Use this form to keep track of weekly visual inspections of your process wastewater and storm water containment structures. Document the findings of daily storm event inspections. List the structure items that need to be inspected below (refer to your Engineered Waste Management Plan).

Keep track of your inspections in the attached tables by completing one row each week when you inspect your process wastewater and storm water containment structures. Provide the following information: date of inspection, initials of the person performing the inspection, check "OK" box if no problems were found, use the "Notes" column to describe problems, if you find any, and how they were fixed, record the estimate of the wastewater containment pond(s) freeboard, fill in the "Date Corrected" column with the date when you corrected the problem.

Facility Name:	Art Venegas Dairy	
Facility Address:	13835 Euclid Avenue, Ontario	

Instructions: Use this form to keep track of weekly visual inspections of your process wastewater and storm water containment structures. Document the findings of daily storm event inspections. List the structure items that need to be inspected below (refer to your Engineered Waste Management Plan).

Keep track of your inspections in the attached tables by completing one row each week when you inspect your process wastewater and storm water containment structures. Provide the following information: date of inspection, initials of the person performing the inspection, check "OK" box if no problems were found, use the "Notes" column to describe problems, if you find any, and how they were fixed, record the estimate of the wastewater containment pond(s) freeboard, fill in the "Date Corrected" column with the date when you corrected the problem.

#### Summary Report of Weekly Storm Water Management Structure Form 2. Inspections

# (Order No. R8-2013-0001, NPDES No. CAG018001)

#### January 1, 2018 through December 31, 2018 **Reporting Period:**

Operator's Name	Art Venegas	
Facility Name	Art Venegas Dairy	
Facility Address	13835 Euclid Avenue, Ontario	

If No, please explain why the log sheet was not completed for the entire year.

Were water lines inspected daily? Yes No X No

Were there any discharges from the facility during the year? Yes If Yes, please provide: the date of discharge, how it was discovered (was it during a routine site inspection?), how long did the discharge last, and how it was stopped.

K

Date of incident	How was it discovered?	How long did it last and volume	How was it stopped?		

#### Certification:

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.

#### Form 1. CAFO Weekly Storm Water Management Structure Inspections Log Sheet (Order No. R8-2013-0001, NPDES No. CAG018001)

<b>Reporting Period:</b>	January 1, 2017 through December 31, 2	017
--------------------------	--	-----

Facility Information (Please make corrections directly on this form)			
Operator's Name:	Art Venegas		
Facility Name:	Art Venegas Dairy		
Facility Address:	13835 Euclid Avenue, Ontario		

Instructions: Use this form to keep track of weekly visual inspections of your process wastewater and storm water containment structures. Document the findings of daily storm event inspections. List the structure items that need to be inspected below (refer to your Engineered Waste Management Plan).

-	
-	

Keep track of your inspections in the attached tables by completing one row each week when you inspect your process wastewater and storm water containment structures. Provide the following information: date of inspection, initials of the person performing the inspection, check "OK" box if no problems were found, use the "Notes" column to describe problems, if you find any, and how they were fixed, record the estimate of the wastewater containment pond(s) freeboard, fill in the "Date Corrected" column with the date when you corrected the problem.

#### Santa Ana Regional Water Quality Control Board

April 19, 2012

Mr. Art Venegas Art Venegas Dairy 13835 Euclid Avenue Ontario, CA 91762 CERTIFIED MAIL RETURN RECEIPT REQUESTED

# EXPEDITED PAYMENT OPTION NOTICE TO ADDRESS MANDATORY MINIMUM PENALTIES FOR VIOLATIONS OF NPDES PERMIT NO. CAG018001

Mr. Venegas:

This is to notify you that you are alleged to have violated California Water Code (CWC) Section 13385(h) for which the Regional Board shall assess mandatory minimum penalties. This letter outlines an expedited methodology for settling the outstanding violations and the mandatory minimum penalties associated with them.

#### VIOLATIONS AND STATUTORY AND DISCRETIONARY LIABILITIES:

Pursuant to CWC Section 13385(h)(1), a mandatory penalty of three thousand dollars (\$3,000) shall be assessed for each serious violation. CWC Section 13385.1 defines, in part, a serious violation as "...a failure to file a discharge monitoring report required pursuant to Section 13383 for each complete period of 30 days following the deadline for submitting the report..."

The Art Venegas Dairy is covered under General Waste Discharge Requirements for Concentrated Animal Feeding Operations (Dairies and Related Facilities) within the Santa Ana Region, Order No. R8-2007-0001, NPDES No. CAG018001 (General Permit). Attachment B, Sections X.A and X.B, provide specific information on the Reporting Requirements for the Monitoring and Reporting Program of the General Permit. Sections X.A.2 and X.B.2 provide a deadline of January 15 of each year for submitting an Annual Report of Animal Waste Discharge. The Regional Board has determined that Art Venegas Dairy has violated Sections X.A.2 and X.B.2 of the Permit for not submitting the required reports by January 15, 2012 and is therefore subject to mandatory penalties. As of this date, the required Annual Report has not been submitted and therefore Art Venegas Dairy has incurred three 30-day periods of violation (that is non-submittal of Annual Report by February 14, 2012, March 16, 2012, and April 16, 2012). In accordance with CWC Section 13385(h) and Section 13383, the total mandatory penalty for the three 30-day periods is nine thousand dollars (3 x \$3,000 = \$9,000).

CAROLE H. BESWICK, CHAIR | KURT V. BERCHTOLD, EXECUTIVE OFFICER

3737 Main St., Suite 500, Riverside, CA 92501 | www.waterboards.ca.gov/santaana

Alternatively, in accordance with CWC Section 13385(c), the Regional Board may impose discretionary administrative civil liability for the violations cited above. The time period for the violations cited above represents 90 days of violation. Consequently, the maximum administrative civil liability which may be imposed for these violations is \$900,000 (\$10,000 per day of violation).

#### EXPEDITED PAYMENT PROGRAM:

Generally, the Regional Board would issue a formal administrative civil liability complaint to assess these penalties and conduct a public hearing. To conserve the discharger's as well as Regional Board staff resources, the State Water Resources Control Board, through its Office of Enforcement, has developed a methodology for the discharger to settle these types of violations through an expedited payment program. If Art Venegas Dairy desires to have an expedited settlement as stipulated in Attachment 1, "Acceptance of Conditional Resolution and Waiver of Right to Hearing", the Art Venegas Dairy must sign the Attachment and make a payment of nine thousand dollars (\$9,000) to this office. If Art Venegas Dairy accepts this option by executing Attachment 1, Art Venegas Dairy would be also waiving its right to a hearing. The Regional Board will then forgo issuance of a formal administrative complaint and will waive its right to seek additional discretionary civil liabilities for the violations identified above. Please note that the expedited payment option does not address any violation that is not specifically identified in this notice.

#### ART VENEGAS DAIRY OPTIONS:

- 1. Accept this offer for expedited payment by signing and returning Attachment 1 by May 3, 2012. Federal regulations require the Regional Board to publish and seek public comments on any proposed settlement of actions related to NPDES permit violations (40 CFR 123.27(d)(2)(iii)). Upon receipt of your acceptance of the expedited payment option (signed Attachment 1), Regional Board staff will publish a notice of the proposed resolution of the violations cited above. If no significant public comments are received within 30 days, the Executive Officer will counter-sign Attachment 1 and it will be returned to you for payment of the mandatory minimum penalty of \$9,000 within 30 days of acceptance by the Executive Officer. If significant public comments are received during the public comment period, Board staff will try to address those comments. If the comments cannot be satisfactorily addressed by staff, the expedited payment option will be withdrawn and a formal administrative complaint may be issued and a public hearing may be scheduled at a regularly scheduled Regional Board meeting.
- 2. If you choose to contest any of the violations cited above, please identify the basis for the challenge (e.g., factual error, affirmative defense, analytical error, etc.) prior to May 3, 2012 and contact Stephen D. Mayville at 951-782-4992. Board staff will evaluate the contested violation and determine that

either the violation is not supported and amend the violation, or determine that the alleged violation is meritorious and inform you of the staff decision. If you are not satisfied with the staff decision, a formal administrative complaint and a public hearing may be considered.

If you have any questions about this letter or the attachments, please contact Stephen D. Mayville at 951-782-4992 (by email to <u>smayville@waterboards.ca.gov</u>), or you may contact Ed Kashak at (951) 782-3292, or <u>ekashak@waterboards.ca.gov</u>

Sincerely,

Relat Lithth

Robert L. Holub Division Chief

#### ACCEPTANCE OF CONDITIONAL RESOLUTION AND WAIVER OF RIGHT TO HEARING

Art Venegas Dairy Order No. R8-2012-0033

By signing and returning this Acceptance of Conditional Resolution and Waiver of Right to Hearing (Acceptance and Order), Art Venegas Dairy hereby accepts the resolution of the mandatory minimum penalty assessments for the violations cited in the Expedited Payment Option Notice, violations of NPDES Permit No. CAG018001, for which mandatory minimum penalties shall be assessed by the Regional Board. By signing the Acceptance and Order, Art Venegas Dairy also waives its right to a hearing before the Regional Board.

Art Venegas Dairy agrees that the Expedited Payment Option Notice and Attachment 1 together will serve as a Complaint pursuant to Article 2.5 of the California Water Code (CWC) and that no separate Complaint is required by the Regional Board to assert jurisdiction over the alleged violations. Art Venegas Dairy agrees to pay the mandatory minimum penalty of \$9,000 as shown in the Expedited Payment Option Notice dated April 19, 2012, which shall be deemed payment in full for the violations listed in the Notice, pursuant to CWC Section 13385.

Art Venegas Dairy understands that pursuant to 40 CFR Section 123.27(d)(2)(iii), the Regional Board is required to provide public notice for at least 30 days and seek comments of any settlement agreement with the Art Venegas Dairy related to the NPDES permit violations, prior to the Executive Officer executing any settlement agreements such as this Acceptance and Order. Art Venegas Dairy understands that if significant comments are received, this Acceptance and Order may not be executed and the offer for expedited payment and settlement may be withdrawn and the Regional Board may choose to take formal enforcement action.

CAROLE H. BESWICK, CHAIR | KURT V. BERCHTOLD, EXECUTIVE OFFICER

Art Venegas Dairy understands that once this Acceptance and Order is executed by the Executive Officer of the Regional Board, payment is due within 30 days and a check for \$9,000 made payable to the State Water Resources Control Board, for deposit in the State Water Pollution Cleanup and Abatement account, shall be submitted to the Regional Board office.

Art Venegas Dairy understands that this Acceptance and Order only addresses the violations cited in the Expedited Payment Option Notice.

I hereby affirm that I am duly authorized to act on behalf of and to bind the Art Venegas Dairy in the making and execution of this Acceptance and Order.

#### WASTE DISCHARGE REQUIREMENTS, ORDER NO. R8-2007-0001, NPDES NO. CAG018001, FOR ART VENEGAS DAIRY, LOCATED AT 13835 EUCLID AVENUE, ONTARIO

Mr. Venegas:

On September 7, 2007, the Regional Board adopted General Waste Discharge Requirements for Concentrated Animal Feeding Operations (Dairies and Related Facilities) Within the Santa Ana Region, NPDES No. CAG018001 (Order No. R8-2007-0001). Section II, Part B.3, of Order No. R8-2007-0001, requires the submittal of a Notice of Intent and filing fee for the discharge of wastes. If the proposed discharge meets the requirements of Order R8-2007-0001, the Executive Officer will provide the discharger with a written authorization to discharge wastes in accordance with the terms and conditions specified in Order No. R8-2007-0001.

You have submitted a Notice of Intent and filing fee for the discharge of wastes from the above facility. With receipt of your Notice of Intent and filing fee, you have complied with Section II, Part B.3, of Order No. R8-2007-0001. Therefore you are hereby authorized to discharge waste from your facility in accordance with the terms and conditions specified in Order No. R8-2007-0001.

Order No. R8-2007-0001 includes provisions, in part, that:

- 1) Prohibit the land application of manure anywhere in the Santa Ana Region for disposal purposes.
- 2) Prohibit the land application of manure as fertilizer in certain areas of the Region, and limit the land application of manure as fertilizer in the remainder of the Region.
- 3) Require all facility operators to develop and implement an Engineered Waste Management Plan (EWMP).
- 4) Require all manure scraped from corrals be removed from the facility within 180 days.
- 5) Require large CAFOs (greater than 700 cows) that transfer manure to a third party to provide that party with a chemical analysis of the manure for nitrogen compounds.

California Environmental Protection Agency

Art Venegas

- 6) Require you to inspect your facilities on at least a weekly basis, and record the findings in the enclosed log form.
- 7) Require the tracking of all manure removed from the facility. Please use the enclosed form for all manure which is hauled from your facility.
- 8) Require you to submit the following reports by January 15 of each year:
  - Annual Summary Report (the form will be transmitted to you near year end)
  - Annual Summary Report of Storm Water Management Structure Inspections (i.e. a summary from the weekly inspection logs mentioned above. The form will be transmitted to you near year end)
  - New Manure Tracking Manifest (form enclosed)

Our records indicate that an EWMP for this facility was accepted on September 28, 2005. After an accepted EWMP is implemented, a certification letter indicating that the EWMP was implemented must be submitted to our office. As of this date, we have not received a certification letter that the accepted EWMP was implemented.

If you intend to develop a new EWMP or modify the accepted EWMP please submit the name of the engineer or qualified individual who will develop the EWMP and a time schedule to develop or modify the EWMP. If you intend to use the current accepted EWMP, a certification letter from the engineer who developed the EWMP, must be submitted to our office.

Please note that failure to fully develop and implement an EWMP and submit an implementation certification for this facility is a violation of Order No. R8-2007-0001, which could subject you to an administrative civil liability penalty of \$10,000 per day for each day the violation occurs. <u>To avoid a possible enforcement action by the Regional</u> Board, please submit the above requested information by June 1, 2010.

As a reminder, a copy of the Order No. R8-2007-0001 can be downloaded from the Regional Board's website at: <u>http://www.waterboards.ca.gov/santaana/pdf/07-01.pdf</u>. If you have any questions, I would encourage you to call Ed Kashak at (951) 782-3292 or Jawed Shami at (951) 782-3288.

Sincerely,

Ktv. Btll

Gerard J. Thibeault Executive Officer

Instructions: Use this form to keep track of weekly visual inspections of your process wastewater and storm water containment structures. Use this form to document the findings of daily storm event inspections. List the items that need to be inspected below (refer to your Engineered Waste Management Plan).

Keep track of your inspections in the following table by filling out one row each week when you inspect your process wastewater and storm water containment structures. Provide the following information: date of inspection, initials of the person performing the inspection, check "OK" box if no problems were found, use the "Notes" column to describe problems, if you find any, and how they were fixed, record the estimate of the wastewater containment pond(s) freeboard, fill in the "Date Corrected" column with the date when you corrected the problem.

Santa Ana Regional Water Quality Control Board

#### Instructions

- 1) Complete one manifest for each hauling event, for each destination. A hauling event may last for several days, as long as the manure is being hauled to the same destination.
- 2) If there are multiple destinations, <u>complete a separate form for each destination</u>.
- 3) The operator must obtain the signature of the hauler upon completion of each manure hauling event.

4)	The operator shall submit manure tracking manifest(s) with the Annual Report of Animal Waste Discharge to the Santa Ana
	Regional Water Quality Control Board.

## BUILDING DEPARTMENT

303 EAST "B' STREET, CIVIC CENTER, ONTARIO, CALIFORNIA91764-4196 TELEPHONE: (909) 395-2023 FAX: (909) 395-2180

### METHANE ASSESSMENT FOR PROJECTS IN THE NEW MODEL COLONY

Applicants shall provide for the Building Department's review and approval, a methane assessment report addressing whether the property in questions was ever used as a dairy, poultry ranch, hog ranch, livestock feed operation site, manure stockpile site, manure/livestock burial site, run-off ponds, or for any other purpose that might result in the deposition of materials which might produce methane.

The report shall be prepared by a licensed engineer or licensed geologist and shall include the following:

- Historic aerial photos and historic topographic map review.
- Interviewing the owner/land managers for possible locations of potential methane generation areas.
- Site reconnaissance to determine the current site usage and conditions.
- Identifying potential methane areas.
- A proposed scope of work for post-grading methane investigation based on the historical study.

This report may be included as part of the soils and geology report and shall be submitted to the Building Department for review and approval at the time building permit applications are filed.

All lots in potential methane areas identified in the Methane Site Assessment report shall be tested for the presence of any methane and its concentration 30 days after building pads are graded and created.

A report, prepared by a licensed engineer or geologist and separate from the Methane Site Assessment report, summarizing the methane test conducted, the location/lot where methane is found and its concentration, and the recommended mitigation measures shall be submitted to the Building Department for review and approval. This test report could be a standalone report or be a part of the soils and geology report. This test report should be submitted together with building plans when permit applications are filed, or thereafter as soon as it is available. No building permit will be issued until the test report is approved by the Building Department, and the lots with methane and any required mitigation measures are shown on building plans.

### METHANE DESIGN GUIDELINES

Measured Methane Concentration (ppm)	Minimum Mitigation Guidelines
< 15,000	Provide a 10-mil moisture barrier. Seal utility conduits and other penetration in an approved method.
> 15,000	Provide a 10-mil moisture barrier. Seal utility conduits and other penetration in an approved method. Also include any remediation required by the Engineer of record.
Waste, Burial Site, Pond, Lowland	Require methane report prepared by a licensed engineer or geologist on required remediation.

UNDERGROUND TANK CLOSURE REPORT 7255 Schaefer Avenue, Ontario, CA 91761

September 7, 2011

This report describes the removal of an underground storage tank from the property at 7255 Schaefer Avenue, Ontario, California. The tank was 550 gallons in volume, was of single-wall steel construction, and was formerly used to store diesel fuel. The dispenser island was located directly over the tank, and the tank-related piping did not extend beyond the tank excavation.

The soils covering the tank were excavated and stockpiled at the site on August 31, 2011. In compliance with SCAQMD Rule 1166, SCAQMD was notified prior to beginning the excavation, and volatile organic compound (VOC) concentrations in the air were monitored as the excavation progressed.

The tank-related piping was flushed with water, disconnected, and removed, and the tank was triplerinsed/pressure-washed in-place and removed on September 1, 2011. Residual liquids and rinse water were collected in a vacuum truck and were manifested, transported, and disposed of (recycled) off-site at a licensed TSDF. Tank atmospheric readings were taken and dry ice was placed into the tank. Upon approval of on-site County and City Fire Department on-site representatives, the tank was removed from the excavation. The tank appeared to be in very good condition with no apparent holes or cracks. The tank was loaded into a dump truck and transported off-site for destruction and recycling.

After removal of the tank from the excavation, at the direction of Angela Samayoa of San Bernardino County Fire Department, a soil sample was collected from a depth of approximately three feet beneath the tank invert, approximately 12 feet beneath the ground surface. The sample was immediately stored on ice, and was delivered to a State-certified environmental laboratory on the same day. The sample was analyzed for TPH-carbon chain (E.P.A. Method 8015M), for VOC, BETX, MTBE, and fuel oxygenates (E.P.A. 8260B), and for lead (SW846 6010B).

Soil sample analytical results are displayed in the following table:

Compounds / test method:	Concentration:
V.O.C., B.E.T.X., M.T.B.E., fuel oxygenates / E.P.A. 8260B	Not detected
T.P.H. (C5-C24) / E.P.A. 8015M	Not detected
T.P.H. (C25-C40) / E.P.A. 8015M	57 mg/Kg ···
Lead / SW846 6010B	12 mg/Kg

Copies of the permits, inspection record, air monitoring log, tank rinse manifest, tank certification, dry ice receipt, tank destruction certificate, site map, and soil sample analytical report are attached herewith.

Please contact me if you have questions or require anything further.

Sincerely,

Virgil Cicoria Project Manager

NOTE: The State of California has determined that tanks used for the storage of any hazardous or flammable substance shall be considered hazardous even if all contents have been removed.

All storage tanks shall be hauled as hazardous waste, accompanied by a state hazardous waste manifest, and taken to a licensed treatment, storage and disposal facility (TSDF); or if the tanks are triple rinsed on site and the rinsate manifested and hauled to a licensed TSDF, the tank may be handled as nonhazardous.

For information on licensed TSDFs that can accept nonrinsed tanks, contact the State of California Department of Health Services, Toxic Substance Control at (800) 258-6942.

### FIRE DEPARTMENT PERMIT

### PERMIT NO.: FM-11-0254

### BUSINESS NAME: MOINE BROS. -- VIRGIL CICORIA

#### STREET ADDRESS: 521 EAST D STREET WILMINGTON, CA 90744 310-830-1570

#### LOCATION: 7255 E SCHAEFER AV ONTA

#### PERMITTED USE: One Underground Tank Removal

This permit is issued pursuant to the Ontario Muncipal Code and is subject to the conditions and limitations below and on any document(s) filed with the permit application. At the time of issuance, the business was in substantial compliance with the City of Ontario Fire Code regulating the permitted use. This permit shall be considered void if changes in inspected conditions occur without the written acknowledgment of the Ontario Fire Department.

ISSUED BY: Q. Somboa DATE ISSUED: 8/22/11 EXPIRATION DATE: 11/22/11

COMMENTS:

Removal of one 1,000 gallon diesel-storage underground steel tank and related piping and dispenser island to be removed.

Contact: Virgil Cicoria -- 310-830-1570

Applicant to call the Fire Prevention Bureau at 909-395-2562 when an inspection date is scheduled with the County of San Bernardino for removal of the tank.

#### FRONTIER COMMUNICATION CONSTRUCTION SPECIFICATIONS

- 1. Contact Frontier Engineer SCOTT MANNS 909-748-6643 sixty (60) days prior to need of service in order to confirm compliance, order materials, and schedule work forces. NOTE:P[ FRONTIER COMMUNICATIONS, INCORPORATED, RESERVES THE RIGHT TO REFUSE ANY CONDUIT, PULL BOXES, MANHOLES, OR UTILITY BOXES THAT DEVIATE FROM PLANS AND SPECIFICATIONS.
- 2. All conduit risers bends to have a minimum thirty-six (36) inch radius.
- 3. All horizontal ninety degree bends (90°) shall have a radius of not less than 12.5 feet and all vertical ninety degree bends (90°) shall have a radius of not less than three feet. No more than two ninety degree (90°) horizontal bends shall be placed in any single run unless otherwise specified. Contact Frontier engineer concerning any required deviations
- 4. All conduit must be prooved using a mandrel no less than a 1/2" smaller than the conduit placed. Wall to wall measurements must be taken with a mule tape or a 3/8" polypropylene pull rope provided in each duct. An accurate wall to wall measurement of conduit placed must be As-built on approved Frontier construction plans. A copy of the As-built conduit work order must be provided to the Frontier inspector assigned to your project, before entrance cable can be designed and ordered. Contact DAVE FIOL, 909-837-8273 at the inspection office for coordination of inspection dates. DEVIATION FROM THIS PLAN WITHOUT CONSENT FROM FRONTIER MAY CAUSE DELAYS IN PROVIDING SERVICE
- 5. Place weatherproof cap on end of all conduits terminated outside of a building.
- 6. Rigid steel or approved plastic conduit (PVC Sch. #40, TYPE-C (4") or DB-120 (2") is specified in underground construction unless otherwise specified. Condulets, Flex, Transite, Plumbers fittings, Water and Gas Pipes must not be used. RIGID STEEL MUST BE USED WHEN CONDUIT CAN BE EXPOSED TO VEHICULAR TRAFFIC.
- 7. Conduit terminated on a pole must be PVC Sch. 80. If conduit will be exposed to traffic, rigid steel pipe and sweep will be required to 48" above finished grade otherwise turned up 12" above finished grade. Location of riser on pole will be called out on conduit plan by Frontier engineer.
- 8. Conduit placed in same trench with primary power conduit must be separated by not less than twelve (12) inches of well-packed sand or three inches of concrete, and have not less than thirty-six (36) inch cover to top of pipe when placed behind curb face. All street crossings and ducts placed in the driven portion of the roadway must have no less than forty-eight (48) inch of cover to top of pipe. CONTACT THE FRONTIER INSPECTOR 48 HOURS BEFORE TRENCHING AND UPON COMPLETION OF YOUR SUBSTRUCTURES TO SCHEDULE THE FINAL INSPECTION.
- 9. Provide manhole(s) x x -# Quickset, Brooks or equivalent with manhole cover marked "Frontier", and conduit terminator furnished from the manufacturer as per Frontier specifications. Provide 3' x 5' x 3' pullbox(es), Name brand Quazite/Strongwell of composite and galvanized steel construction with torsion style parkway cover marked "FRONTIER". Install cable racks and ground rod per manufacturer specifications, DO NOT place pull boxes in vehicular traffic areas. See manufacturers cut sheet provided.
- 10. FRONTIER RECOMMENDATIONS: Provide a minimum 1-4" conduit home run from each suite location to the main terminal backboard in lieu of running cables over drop ceiling access. Frontier will not install cables not contained in conduit.
- 11. Provide source of ground at the telephone backboard location: (1) #6 insulated copper wire (solid preferred) to power system ground. - (1) #6 insulated copper wire (solid preferred) to permanent metallic structure such as UFER ground or building steel. - (1) #6 insulated copper wire (solid preferred) to metallic water pipe bonded to previously described permanent metallic structure. Leave adequate wire to extend six feet beyond base of backboard. NOTE: THE FOLLOWING MUST NOT BE USED FOR GROUND SOURCES: ROOF TRUSSES. FLOOR JOINTS, BRACES, SPRINKLER SYSTEM PIPES, METAL ELECTRICAL DISTRIBUTION CONDUIT, AND HORIZONTAL STEEL MEMBERS LESS THAN 3/8" THICK
- 12. Provide cable racking as described in attachment. Provide pulling irons as described in attachment.
- 13. Three to six weeks will be needed from the date of final inspection for Frontier to start placing facilities, all paperwork and easements must also be completed, if applicable,

### SUBJECT: ABANDONED UNDERGROUND STORAGE TANK(S) (USTs) SUMMERHILL DAIRY, 7255 SCHAEFER AVENUE., CHINO, CA 91710

A Department review indicates that you own property with UST(s) that do not meet the standards required by the California Health and Safety Code Sections 25284, and 25298. In order to be in compliance with applicable regulations, the UST(s) at this location must be removed, replaced or upgraded. Please submit a letter to this office no later than **June 20, 2011** stating your intent and method of compliance.

If you do not meet this deadline, this case will be referred for enforcement action including a Notice of Violation, and a Notice of Lien on the title of the property.

If you have any questions, please call me at (909) 386-8419.

Subject: RE: ARTEVEL - PHASE 1

At the request of Jason Lee, we provide the following information:

- 1. Completed Owner Interview/EIR questionnaire;
- 2. Documents referenced in the Questionnaire including the following:
  - a. Underground Tank Closure Report dated September 7, 2011 and related documents, including inspection card, application for removal of underground storage tank, fire dept. permit, Rule 1166 soil monitoring records, manifests, hazardous waste tank closure certification, certificate of destruction, plot plan, lab results, and chain of custody record;
  - b. Letter from San Bernardino County Fire Department;
  - c. San Bernardino County Fire Department Receipt;
  - d. Invoice from Monie Bros.;
  - e. 2019 AT&T Wireless facilities plans;
  - f. 2019 Frontier Communications plans; and
  - g. 2017 Southern California Edison plans.

The enclosed information and documents are provided in compliance with and subject to Section 5.4 of the PSA and are part of the "Property Documents" being provided by seller. We apologize for any delay in providing the completed questionnaire and enclosed documents but it took a number of days searching through our archival records to dig up this information regarding a UST on the site, which was removed in in 2011.

Sincerely,

Gary R. Phillips

#### Good Morning Gary,

I'm following up on the Phase 1 environmental questionnaire that I had sent to you previously. I've attached another copy. Could you give me an ETA for returning this to me?

My consultant finished his onsite walkthrough, is wrapping up the final report and needs this information to complete it.

Thank you,

Jason

Jason,

Thanks for your email. I will get back to you soon with any available information.

Sincerely,

From: Jason Lee <jasonl@distinguishedhomes.com> Sent: Friday, June 25, 2021 9:52 AM To: Gary Phillips <<u>GPhillips@PhillipsLawPartners.com</u>> Cc: Jason Lee <jasonl@distinguishedhomes.com> Subject: FW: ARTEVEL - PHASE 1

Good Morning Gary,

My name is Jason Lee and I work with RC. I'm currently in process with the DD and my environmental consultant is requesting the owner completes the attached environmental questionnaire. If you could return it to me at your earliest convenience, I would appreciate it.

Also, we are in process of setting up our onsite phase 1 site walk, as well as the ALTA and boundary survey. I don't have exact dates yet, but will let you know when I get confirmation. Besides sending an email to you, is there a contact person onsite that you would like us to notify (so the tenants are aware when our consultants show up!).

Let me know.

Thank you,

Jason (714) 412-9263 (cell)

From: Kaspar Wittlinger [mailto:KWittlinger@ConverseConsultants.com] Sent: Thursday, June 24, 2021 3:38 PM To: Jason Lee Subject: ARTEVEL - PHASE 1

Good afternoon Jason,

Thank you for this project. Would you please forward the attached questionnaire to the current owner(s) or provide me with their contact info?

The approximate completion date for the assessment will be July 21. Is it possible to get access to the Property on July 2 (next Friday)?

Best regards, Kaspar
